**OKLAHOMA HAY REPORT
(1-8-04)**

ALFALFA HAY: Hay trade continues to be slow with prices holding steady. Some alfalfa sales have taken place since grazing conditions have been depleting due to lack of moisture. Hay supplies in the state continue to be adequate. Producers might start feeding more hay in the future if rain does not come in the near future.

GRASS HAY: Cooler temperatures have caused demand to increase slightly. Producers continue to hold hay from early cuttings for higher prices. Some producers starting to feed more grass hay in order to stretch wheat pasture. Low temperatures this past week have caused some to put more grass hay out for cattle.

All prices are from most recent sales:

ALFALFA:

CENTRAL AND WESTERN OKLAHOMA: Premium quality large squares 100.00-110.00 per ton. Small squares 100.00-110.00 per ton. Good quality large squares 95.00-105.00, small squares 90.00-100.00/ton. Good large rounds 60.00-70.00. Fair quality large squares 50.00-60.00 per ton. Fair large rounds 50.00-60.00 a ton. Wheat hay in large round bales 30.00-40.00 a ton.

PANHANDLE AND WESTERN FEEDLOT AREA:

Good grinding alfalfa at the edge of the field or bale pile (spot) 55.00-60.00 a ton. Chopped and delivered to feedlots (short haul) 70.00-80.00 per ton.

GRASS HAY:

CENTRAL AND EASTERN OKLAHOMA: Premium quality large squares 60.00-70.00 a ton, small squares 60.00-70.00 per ton. Good quality small squares 60.00-65.00 per ton. Premium quality large rounds 50.00-65.00. Good quality large rounds 45.00-55.00 per ton. Fair quality 40.00-45.00 per ton.

**OKLAHOMA RANGE SALES REPORT
(1-13-04)**

Oklahoma Direct Feeder Cattle Sales

Trade period reflects January 7 through January 13, 2004.

Sales: This week: 1725 Last week: 0 Last year: 3775

Compared to last week: Like the auction markets last week, country bids have declined 8.00-12.00 in the last month. Through December most farmers opted to contract their cattle for spring delivery. Demand did improve this week after the market was finally established. Conditions in western Oklahoma remain very dry and numbers of cattle on wheat in this area are sparse. Eastern Oklahoma is another story with green pastures and full ponds.

Sales this week were confirmed on 1190 steers and 538 heifers. 95% of this week's sales are for current delivery. Yearlings made up 100% of the week's confirmed sales. Heifers comprised 31% of supply.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and a 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

Feeder Steers: Medium and Large 1 Current delivery 525-550 lbs 97.00-100.00; 700 lbs 89.00; 835-850 lbs 85.00-90.00; 900 lbs 83.00

Holsteins Large 3 Current delivery 500 lbs 80.00.

Feeder Heifers: Medium and Large 1 Current delivery 525 lbs 90.00; 625 lbs 87.00; 700-775 lbs 80.00-84.00.

Medium and Large 1-2 Current delivery 800 lbs 82.00.

**OKLAHOMA HAY REPORT
(1-15-04)**

Oklahoma Hay Report

ALFALFA HAY: Hay trade slow to moderate with prices holding steady. Grinding alfalfa in the panhandle and western Oklahoma was \$10.00 higher per ton. Hay supplies in the state continue to be adequate. Producers are looking forward to seeing the predicted rains come this week. Many producers in the state are losing wheat pasture due to lack of moisture. Green bugs and army worms are starting to show up especially in the central and western regions of Oklahoma.

GRASS HAY: Cooler temperatures have caused demand to increase slightly. Producers continue to hold hay from early cuttings for higher prices. Mild and dry temperatures have caused some to start feeding grass hay to stretch wheat pasture.

All prices are from most recent sales:

ALFALFA:

CENTRAL AND WESTERN OKLAHOMA: Premium quality large squares 100.00-110.00 per ton. Small squares 100.00-110.00 per ton. Good quality large squares 95.00-105.00, small squares 90.00-100.00/ton. Good large rounds 60.00-70.00. Fair quality large squares 50.00-60.00 per ton. Fair large rounds 50.00-60.00 a ton.

WHEAT HAY:

CENTRAL AND EASTERN OKLAHOMA: Wheat hay in large round bales 30.00-40.00 a ton.

PANHANDLE AND WESTERN FEEDLOT AREA:

Good grinding alfalfa at the edge of the field or bale pile (spot) 65.00-70.00 a ton. Chopped and delivered to feedlots (short haul) 80.00-90.00 per ton.

GRASS HAY:

CENTRAL AND EASTERN OKLAHOMA: Premium quality large squares 60.00-70.00 a ton, small squares 60.00-70.00 per ton. Good quality small squares 60.00-65.00 per ton. Premium quality large rounds 50.00-65.00. Good quality large rounds 45.00-55.00 per ton. Fair quality 40.00-45.00 per ton.

**OKLAHOMA HAY REPORT
(1-22-04)**

ALFALFA HAY: Hay trade slow to moderate with prices holding steady. Hay sales in Western Oklahoma are increasing due to dry weather conditions. Much of northwestern Oklahoma has lost grazing due to severe drought. Green bugs and army worms continue to be a problem for wheat producers. Alfalfa producers are also dealing with army worms in much of the state.

GRASS HAY: Cooler temperatures have caused demand to increase slightly. Producers continue to hold hay from early cuttings for higher prices. Mild and dry temperatures causing many producers to still feed grass hay to stretch wheat pasture.

All prices are from most recent sales:

ALFALFA:

CENTRAL AND WESTERN OKLAHOMA: Premium quality large squares 100.00-110.00 per ton. Small squares 100.00-110.00 per ton. Good quality large squares 95.00-105.00, small squares 90.00-100.00/ton. Good large rounds 60.00-70.00. Fair quality large squares 50.00-60.00 per ton. Fair large rounds 50.00-60.00 a ton.

WHEAT HAY:

CENTRAL AND EASTERN OKLAHOMA: Wheat hay in large round bales 30.00-40.00 a ton.

PANHANDLE AND WESTERN FEEDLOT AREA:

Good grinding alfalfa at the edge of the field or bale pile (spot) 65.00-70.00 a ton. Chopped and delivered to feedlots (short haul) 80.00-90.00 per ton.

GRASS HAY:

CENTRAL AND EASTERN OKLAHOMA: Premium quality large squares 60.00-70.00 a ton, small squares 60.00-70.00 per ton. Good quality small squares 60.00-65.00 per ton. Premium quality large rounds 50.00-65.00. Good quality large rounds 45.00-55.00 per ton. Fair quality 40.00-45.00 per ton.

Oklahoma Direct Feeder Cattle Sales

Sales: This week: 3950 Last week: 3470 Last year: 1575

Compared to last week: Feeder steers and heifers steady to 2.00 higher as bulk of cattle were sold last week before the drop in the market. Demand good for feeder cattle last week but slowed late in the trading period. Cattle futers showed significant declines last Friday and Monday, causing buyers to make adjustments to last weeks higher bids. Very little interest in contract cattle among cattlemen as the January feeder contract expires Thursday and spring contracts at a 4.00-5.00 discount to the current month.

Sales this week were confirmed on 2980 steers and 960 heifers. 84% of this week's sales are for current delivery. Yearlings made up 88% of the week's confirmed sales. Heifers comprised 24% of supply.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and a 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

**OKLAHOMA HAY REPORT
(1-27-04)**

ALFALFA HAY: Hay trade slow to moderate with prices holding steady. Hay sales in Western Oklahoma are increasing due to dry weather conditions. Much of northwestern Oklahoma has lost grazing due to severe drought. Light snows passed through parts of western and central Oklahoma this past week leaving little moisture behind.

GRASS HAY: Cooler temperatures have caused demand to increase slightly. Producers continue to hold hay from early cuttings for higher prices. Mild and dry temperatures causing many producers to still feed grass hay to stretch wheat pasture.

All prices are from most recent sales:

ALFALFA:

CENTRAL AND WESTERN OKLAHOMA: Premium quality large squares 100.00-110.00 per ton. Small squares 100.00-110.00 per ton. Good quality large squares 95.00-105.00, small squares 90.00-100.00/ton. Good large rounds 60.00-70.00. Fair quality large squares 50.00-60.00 per ton. Fair large rounds 50.00-60.00 a ton.

WHEAT HAY:

CENTRAL AND EASTERN OKLAHOMA: Wheat hay in large round bales 30.00-40.00 a ton.

PANHANDLE AND WESTERN FEEDLOT AREA:

Good grinding alfalfa at the edge of the field or bale pile (spot) 65.00-70.00 a ton. Chopped and delivered to feedlots (short haul) 80.00-90.00 per ton.

GRASS HAY:

CENTRAL AND EASTERN OKLAHOMA: Premium quality large squares 60.00-70.00 a ton, small squares 60.00-70.00 per ton. Good quality small squares 60.00-65.00 per ton. Premium quality large rounds 50.00-65.00. Good quality large rounds 45.00-55.00 per ton. Fair quality 40.00-45.00 per ton.

**OKLAHOMA RANGE SALES REPORT
(2-3-04)**

Sales: This week: 1800 Last week: 3950 Last year: 2550

Compared to last week: Feeder steers and heifers steady to 3.00 lower. Fat cattle market continues to tumble and feeder cattle are trying to fall in line. Light supplies of feeder cattle this month may hold feeder cattle prices for the time being, however back months of the slaughter cattle futures fail to support any increases in feeder prices.

Western Oklahoma remains very dry but several winter storms are pushing their way thru this week with expected moisture of some kind.

Sales this week were confirmed on 1695 steers and 112 heifers. 60% of this week's sales are for current delivery. Yearlings made up 98% of the week's confirmed sales. Heifers comprised 6% of supply.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and a 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

Feeder Steers: Medium and Large 1 Current Delivery
625 lbs 94.50; 750-775 lbs 83.50-89.00; 800 lbs 82.00-88.50; Mar delivery 750 lbs 86.00.

Feeder Heifers: Medium and Large 1 Current Delivery

**OKLAHOMA HAY REPORT
(2-5-04)**

ALFALFA HAY: Hay trade slow to moderate with prices holding steady. Demand moderate for ground alfalfa and dairy alfalfa. Hay sales in western Oklahoma are increasing due to previous dry weather conditions. Heavy snows passed through areas of western Oklahoma this past week helping with the drought in most places. Producers feeding more hay due to short wheat supplies although the snow has helped in some areas.

GRASS HAY: Colder temperatures have caused demand to increase slightly. Mild and dry temperatures causing many producers to still feed grass hay to stretch wheat pasture. Producers have welcomed the snow this past week ready to take any form of moisture. Much of Oklahoma has received moisture in some form this past week except the far western Oklahoma region in the panhandle.

All prices are from most recent sales:

**OKLAHOMA HAY REPORT
(2-19-04)**

ALFALFA HAY: Hay trade continues to be slow to moderate with prices holding steady. Producers continue to feed hay to supplement wheat pasture in some regions. Hay inventories starting to deplete as producers are starting to make room for next year's crop.

GRASS HAY: Colder temperatures and snow in southern parts of the state this past week caused many to start feeding more grass hay for cattle. Hay movement in central and northern Oklahoma slower this week, while many producers are starting to sale cattle that are ready to come off of wheat pasture.

All prices are from most recent sales:

ALFALFA:

CENTRAL AND WESTERN OKLAHOMA: Premium quality large squares 100.00-110.00 per ton. Small squares 100.00-110.00 per ton. Good quality large squares 95.00-105.00, small squares 90.00-100.00/ton. Good large rounds 60.00-70.00. Fair quality large squares 50.00-60.00 per ton. Fair large rounds 50.00-60.00 a ton.

WHEAT HAY:

CENTRAL AND EASTERN OKLAHOMA: Wheat hay in large round bales 30.00-40.00 a ton.

PANHANDLE AND WESTERN FEEDLOT AREA:

Good grinding alfalfa at the edge of the field or bale pile (spot) 65.00-70.00 a ton. Chopped and delivered to feedlots (short haul) 80.00-90.00 per ton.

GRASS HAY:

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and a 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

**OKLAHOMA HAY REPORT
(2-26-04)**

ALFALFA HAY: Hay trade continues to be slow to moderate with prices holding steady. Chopped alfalfa prices steady to weak with light demand. Hay inventories continue to deplete with quality of hay available less desirable as inventories start to diminish.

GRASS HAY: Hay movement in Oklahoma has been slow with prices currently holding steady. Producers continue to feed grass hay to cattle on wheat. Many farmers are starting to unload cattle since harvesting wheat is looking more profitable this year than the return of grazing cattle until May.

All prices are from most recent sales:

ALFALFA:

CENTRAL AND WESTERN OKLAHOMA: Premium quality large squares 100.00-110.00 per ton. Small squares 100.00-110.00 per ton. Good quality large squares 95.00-105.00, small squares 90.00-100.00/ton. Good large rounds 60.00-70.00. Fair quality large squares 50.00-60.00 per ton. Fair large rounds 50.00-60.00 a ton.

PANHANDLE AND WESTERN FEEDLOT AREA:

Good grinding alfalfa at the edge of the field or bale pile (spot) 65.00-70.00 a ton. Chopped and delivered to feedlots (short haul) 80.00-90.00 per ton.

GRASS HAY:

**OKLAHOMA RANGE SALES REPORT
(3-2-04)**

Sales: This week: 14,400
Last week: 8,130
Last year: 10,125

Compared to last week: Feeder steers steady to 1.00 higher. Feeder heifers 1.00-2.00 higher. Demand remains good for feeder cattle, despite this being the peak of the wheat run. The seasonal pattern of the markets is a decline in prices, but looking at fewer cattle going into March has held the demand for feeder cattle. Good rains are in the forecast for the next two days this would be very beneficial to some already very dry ponds.

Sales this week were confirmed on 9712 steers and 4686 heifers. 86% of this week's sales are for current delivery. Yearlings made up 97% of the week's confirmed sales. Heifers comprised 32% of supply.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and a 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

**OKLAHOMA HAY REPORT
(3-4-04)**

ALFALFA HAY: Hay trade slow with prices holding steady to light on moderate demand. Hay movement across the state has been steady. Hay inventories across the western parts of the state starting to become lighter. Much needed rain has been received this week throughout Oklahoma. Farmers in western Oklahoma are happy to receive the run-off moisture so their dry ponds can be filled.

GRASS HAY: Hay movement in Oklahoma has been slow with prices currently holding steady. The demand for feeder cattle is greater at this time with fewer cattle going into March. Cattle on wheat have done well this year and many producers are selling because the majority of cattle are too large to graze out.

All prices are from most recent sales:

ALFALFA:

CENTRAL AND WESTERN OKLAHOMA: Premium quality large squares 100.00-110.00 per ton. Small squares 100.00-110.00 per ton. Good quality large squares 95.00-105.00, small squares 90.00-100.00/ton. Good large rounds 60.00-70.00. Fair quality large squares 50.00-60.00 per ton. Fair large rounds 50.00-60.00 a ton.

WHEAT HAY:

CENTRAL AND EASTERN OKLAHOMA: Wheat hay in large round bales 30.00-40.00 a ton.

PANHANDLE AND WESTERN FEEDLOT AREA:

Good grinding alfalfa at the edge of the field or bale pile (spot) 65.00-70.00 a ton. Chopped and delivered to feedlots (short haul) 80.00-90.00 per ton.

GRASS HAY:

CENTRAL AND EASTERN OKLAHOMA: Premium quality large squares 60.00-70.00 a ton, small squares 60.00-70.00 per ton. Good quality small squares 60.00-65.00 per ton. Premium quality large rounds 50.00-65.00. Good quality large rounds 45.00-55.00 per ton. Fair quality 40.00-45.00 per ton.

**OKLAHOMA RANGE SALES REPORT
(3-9-04)**

Sales: This week: 7600 Last week: 14,400 Last year: 5475

Compared to last week: Feeder steers and heifers 1.00 higher. Demand good as buyers finding it difficult to fill already empty pen space. The March wheat run is pretty well cleaned up and this on fewer numbers. Buyer interest is good for forward contracting cattle, however finding these cattle has been tough. Grazing prospects are good, however the cost of these cattle have skyrocketed. Good rains falling over much of Oklahoma filling many dried out ponds. Wheat pastures showing immediate improvement changing from a dried out yellowish look to lush green fields.

Sales this week were confirmed on 5625 steers and 1735 heifers. 74% of this week's sales are for current delivery. Yearlings made up 96% of the week's confirmed sales. Heifers comprised 23% of supply.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and a 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

**OKLAHOMA RANGE SALES REPORT
(3-16-04)**

Sales: This week: 5000 Last week: 7600 Last year: 3800

Compared to last week: Feeder steers and heifers steady to 2.00 higher, most advance on those over 800 lbs. Feeder numbers continue to dwindle as this is the last official week of the March wheat run according to the "Ides of March". Because of these light numbers, buyers expect a relatively quiet period till the May graze-out wheat run begins. Wheat pasture is in excellent shape in most of Oklahoma after last weeks rains which were followed by spring like temperatures.

Sales this week were confirmed on 3798 steers and 1157 heifers. 78% of this week's sales are for current delivery. Yearlings made up 99% of the week's confirmed sales. Heifers comprised 23% of supply.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and a 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

**OKLAHOMA RANGE SALES REPORT
(3-23-04)**

Sales: This week: 3780 Last week: 5000 Last year: 4525

Compared to last week: Feeder steers steady to 1.00 higher. Feeder heifers not well tested. Demand good but offerings are light as most feeder cattle have made their move off winter wheat. Grain futures continue to hold strong, forcing cattle futures lower. This has deterred some of those with grazing cattle from forward pricing cattle.

Sales this week were confirmed on 3711 steers and 69 heifers. 77% of this week's sales are for current delivery. Yearlings made up 100% of the week's confirmed sales. Heifers comprised 2% of supply.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and a 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

**OKLAHOMA HAY REPORT
(4-15-04)**

ALFALFA HAY: Hay demand moderate with prices steady to \$15.00 per ton higher. This past week much of Oklahoma was hit by a hard freeze. Temperatures got to as low as 19 degrees in the Panhandle and in central Oklahoma most areas were in the mid 20's. Many producers were looking forward to an early first cutting from alfalfa crops due to early warm temperatures. Extension is telling people it will take about a week before the full extent of damage on alfalfa and wheat will be determined.

GRASS HAY: Hay demand is moderate with prices steady to \$10.00 per ton higher. Producers continue to feed grass hay in most areas of the state. The wheat in southern and central Oklahoma has started to head out, causing producers to be concerned about the freeze that took place this last week. In northern parts of the state the crop looks favorable.

All prices are from most recent sales:

(4-20-04)**

Sales:

This week: 15,635 Last week: 8435 Last Year: 11,525

Compared to last week: Feeder steers and heifers steady to 2.00 higher. Rains in the forecast each day but very spotty. Oklahoma has yet to see a good state wide rain.

Sales this week were confirmed on 7314 steers and 3738 heifers. 50% of this week's sales for current delivery. Yearlings over 600 lbs comprised 95% of confirmed sales. Heifers accounted for 34% of the supply.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and a 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

**OKLAHOMA RANGE SALES
(6-22-04)**

Sales-This week: 3,375 Last week: 5,650 Last Year: 4,850

Compared to last week: Feeder cattle lightly tested, few sales 1.00 higher. Demand continues good but numbers remain tight. Seller interest for forward contracts good as many wonder where the top is in the market and when or if the market will head south. Good rains fell over most of the state late last week thru last night with some measurable rain each night. Last nights rains finally providing runoff water in many areas after a 5 inch deficit the first of June. This moisture pattern will take a brief pause but is back in the forecast by late Thursday and will continue with good chances of rain thru next Monday.

Sales this week were confirmed on 2,225 steers and 1,141 heifers. 51% of this week's sales for current delivery. Yearlings over 600 lbs comprised 89% of confirmed sales. Heifers accounted for 34% of the supply.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and a 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

**OKLAHOMA HAY REPORT
(7-9-04)**

ALFALFA HAY: Hay prices are steady with light to moderate offerings. Hay movement has been slower this past week due to wet hay and tighter supplies of alfalfa. Producers have welcomed the rains but are ready to get back into fields so third cuttings can be put down.

GRASS HAY: Hay demand is moderate with prices steady. Grass hay cuttings continue to look favorable in Oklahoma. Row crops are green and many producers in the state are anxious to get back into fields to start working ground.

All prices are from most recent sales:

ALFALFA:

CENTRAL AND WESTERN OKLAHOMA: Premium quality large squares 100.00-120.00 per ton. Small squares 100.00-120.00 per ton. Good quality large squares 90.00-110.00, small squares 100.00-110.00/ton. Good large rounds 80.00-90.00. Fair quality large squares 70.00-85.00 per ton. Fair large rounds 70.00-80.00 a ton.

WHEAT HAY:

CENTRAL AND EASTERN OKLAHOMA: Wheat hay in large round bales 30.00-40.00 a ton.

PANHANDLE AND WESTERN FEEDLOT AREA:

Good grinding alfalfa at the edge of the field or bale pile (spot) 60.00-75.00 a ton. Chopped and delivered to feedlots (short haul) 80.00-90.00 per ton.

GRASS HAY:

**OKLAHOMA RANGE SALES
(7-6-04)**

This Week: 4120 Last Week: 3150 Last Year: 4850

Compared to last week: Feeder cattle 1.00-2.00 higher, calves steady. Yearling feeders continue scarce and difficult to trade as market is in a constant state of flux. Rains since the end of May have been excellent with much of the states range lands measuring 7-10 inch accumulations.

Sales this week were confirmed on 3298 steers and 821 heifers. 31% of sales for current delivery. Over 600 lb cattle comprised 70% of confirmed sales. Heifers accounted for 20% of the supply.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and a 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

**OKLAHOMA HAY REPORT
(7-15-04)**

ALFALFA HAY: Hay prices continue to be steady with light to moderate offerings. Hay inventories are slightly lower than this same period last year. Dry warm weather has come this past week allowing producers the opportunity to get back into fields. Alfalfa production looks to be strong in the future with third cuttings in some areas starting to come in.

GRASS HAY: Hay demand is moderate with prices steady. Producers are starting to lay down hay in several areas. The grass seems to be high quality throughout most of the state. This past June weather has been way above average for grass hay conditions. All prices are from most recent sales:

ALFALFA:

CENTRAL AND WESTERN OKLAHOMA: Premium quality large squares 100.00-120.00 per ton. Small squares 100.00-120.00 per ton. Good quality large squares 90.00-110.00, small squares 100.00-110.00/ton. **OKLAHOMA RANGE SALES
(7-20-04)**

Sales This week: 4270 Last week: 4750 Year ago: 7625

Compared to last week: Feeder cattle trade was uneven as CME feeder board managed to loose 6.00-7.00 during the trade period. Feeder steers traded very early in the reporting period sold 1.00-2.00 higher. However this early market gave way to the lower money established by futures trading and sale barn action from Wednesday to the present.

The impending movement of Osage and Flint Hills cattle has given feeder buyers some relief from exceptionally high feeder prices.

Sales this week were confirmed on 4058 steers and 211 heifers. 41% of sales for current delivery. Over 600 lb cattle comprised 100% of confirmed sales. Heifers accounted for 5% of the supply.

Unless otherwise stated prices are FOB weigh point with a 3 percent shrink or equivalent and with a 5-10 cent slide on calves and a 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

Feeder Steers: Medium and Large 1 current delivery 675 lbs 123.00; current through September delivery 825 lbs 113.40; August delivery 850 lbs 109.20; September delivery 800 lbs 105.50; March delivery 800 lbs 97.00-98.50.

Medium and Large 1-2 current delivery 925 lbs 102.00. Medium and Large 2 current delivery 700 lb Mexicans 108.00.

Feeder Heifers: Medium and Large 1-2 current delivery 725 lbs 104.00.

Medium and Large 2 September delivery 700 lb Mexicans 103.00.

**OKLAHOMA HAY REPORT
(8-12-04)**

ALFALFA HAY: Hay trade is moderate with prices steady. Many hay producers continue to swath and bale between rain showers. Scattered rains passed through much of the state this last week leaving most areas with more than adequate moisture. Parts of the Panhandle and northwest Oklahoma are still dry.

**OKLAHOMA HAY REPORT
(9-9-04)**

ALFALFA HAY: Hay prices are steady with light to moderate demand. Many producers are busy in the fields moving hay from the last cuttings. In many parts of the state farmers are busy getting an early start on sowing for wheat pasture.

GRASS HAY: Hay demand is light with prices steady. Producers currently have a large surplus of good quality prairie and Bermuda hay in most regions. Conditions have been right this past week for wheat planting-many producers are hoping the ground temperature will stay cool enough for planting to continue.

**OKLAHOMA RANGE SALES
(9-14-04)**

This week: 1365 Last week: 1300 Year ago: 3165

Compared to last week: Feeder cattle steady to 1.00 lower. A great deal of progress has been made planting wheat and rye pastures for grazing. The dry September period has allowed fields to be worked and drilled. Rain is now needed for a good start on some fields. Many stocker operators are highly motivated to contract their wheat pasture calves as feeders this spring. The CME spring feeder boards still lack a little to accomplish this.

Supply consisted of 100% yearlings over 600 lbs. Heifers comprised 24% of the supply.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and a 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

Feeder Steers: Medium and Large 1 current delivery 750-775 lbs 112.00-114.00; 825 lbs 109.00; November delivery 925 lbs 105.50; January delivery 800 lbs 100.50-101.50.

**OKLAHOMA RANGE SALES
(10-12-04)**

Sales: This week: 2730 Last week: 2850 Last Year: 4925

Compared to last week: Feeder steers and heifers steady for very limited current sales. Country business very quiet as many cattle have already been sold or are already contracted. For some the future holds too many risks. Area farmers concerned with the high price of calves this fall have decided to stock their wheat with only 50 percent of their usual numbers. That 50 percent will cost as much this year as 100 percent cost in previous years.

Supply consisted of 100 percent over 600 lbs. Heifers comprised 25 percent of supply.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and a 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

Rain is predicted for some areas in the state for this coming weekend. Much of the wheat is planted in the state with wheat pasture prospects looking favorable in most areas.

GRASS HAY: Hay demand is light with prices steady. Supplies are abundant of quality Bermuda and prairie hay. Producers continue to be busy starting cattle for wheat pasture. Calf prices have risen this past week causing many to look at forward contracting options.
