OKLAHOMA HAY REPORT
(6-23-05)

ALFALFA HAY: Hay demand is moderate and prices steady. Hot dry weather has returned to the state this last week. The drier weather is allowing producers to continue with second cuttings of alfalfa. Wheat harvest is 80% finished with higher yields reported than what was expected for this season. Producers are starting to catch up on summer field work and continue to deal with high fuel prices at this time.

GRASS HAY: Demand for grass hay is slow and movement is moderate. Pasture grasses at this time look green and healthy with all the moisture received this last month. Producers in some areas are making room for starting cattle at this time.

OKLAHOMA HAY REPORT
(7-21-05)

ALFALFA HAY: Prices are steady and demand moderate. Alfalfa producers are storing third cuttings. A cool front moved in mid-week giving grass pastures some relief from the hot dry weather. Producers in most areas would welcome a rain, dryland crops are suffering in most areas at this time. Quality of alfalfa hay is reported to be in good condition in most places.

GRASS HAY: Movement of grass hay is moderate and prices are steady. Many producers continue to be busy baling and moving grass hay from pastures and meadows at this time. Grass quality is reported to be in good condition, while in some places a nice rain would be appreciated.

OKLAHOMA HAY REPORT
(7-28-05)

ALFALFA HAY: Prices are steady and demand moderate. Alfalfa producers are storing third cuttings. Warm drier weather is starting to slow the growth of hay at this point in time. Production cost continue to be discussed with fuel and fertilizer prices causing producers to look at alternative ways to cheapen fuel bills.

GRASS HAY: Movement of grass hay is moderate and prices are steady. Some producers are still cutting grass hay at this time but drier weather is causing slower growth of Bermuda and prairie hay.

GRASS HAY: Movement of grass hay is moderate and prices are steady. Some producers are still cutting grass hay at this time but drier weather continues to slow growth of Bermuda and prairie hay.

OKLAHOMA HAY REPORT
(8-18-05)

ALFALFA HAY: Prices are steady and demand moderate. Rain showers have passed through most areas leaving adequate amounts of moisture behind. The wet weather has stopped alfalfa and prairie hay harvest at this time. Fuel prices continue to rise, putting pressure on producers to lock in fertilizer for wheat sowing this fall.

GRASS HAY: Movement of grass hay is moderate and prices are steady. Grass pastures and meadows used for cutting and grazing look way above average with much vegetation available due to moisture received this past week. Rain showers are still forecasted for the coming week making producers anxious to get back into the field so preparation for wheat sowing can begin.

OKLAHOMA HAY REPORT
(8-25-05)

ALFALFA HAY: Prices are steady and demand moderate. Rain showers have passed through most areas leaving adequate amounts of moisture behind. The wet weather has stopped alfalfa and prairie hay harvest at this time. Fuel prices continue to rise, putting pressure on producers to lock in fertilizer for wheat sowing this fall.

GRASS HAY: Movement of grass hay is moderate and prices are steady. Grass pastures and meadows used for cutting and grazing look way above average with much vegetation available due to moisture received this past week. Rain showers are still forecasted for the coming week making producers anxious to get back into the field so preparation for wheat sowing can begin.

OKLAHOMA HAY REPORT
(9-15-05)

ALFALFA HAY: Prices are steady with light to moderate demand. Many producers are looking at getting one last cutting from alfalfa fields due to the abundant moisture and warmer weather. Farmers have been in the field busy planting wheat, but they are now starting to slow the tractors down until Rita moves thru. Weather forecasters predict 4 to 6 inches of rain this coming weekend.

GRASS HAY: Movement of grass hay is moderate and prices are steady. Many producers have grass pastures and meadows baled at this time. Producers continue to start cattle on grass for winter wheat grazing. Fuel and fertilizer cost continue to pressure producers and transporters.

OKLAHOMA HAY REPORT
(11-10-05)

ALFALFA HAY: Prices are steady and movement of alfalfa hay is moderate. An arctic front moved through the state this past week causing all regions to have significant temperature drops with most areas below freezing at night. Producers continue to feed alfalfa hay to cattle for supplemental feeding.

GRASS HAY: Prices of grass hay are steady and movement is moderate. Producers are slowing down the starting of stocker cattle for wheat pasture with the dry weather. Rangeland and pastures are in fair condition with supplemental feeding for cattle taking place due to lack of growth in crops. Cold temperatures continue to have a negative impact on the drought stricken crops used for winter grazing.

**OKLAHOMA RANGE SALES
(1-25-05)**

Sales: This week: 1,400 Last week: 7,450 Year: 3,950

Compared to last week: Demand good at the beginning of the trading session as the cash feeder cattle made strong advances at the local sale barn. Many trades were based off of last Mondays market. By Wednesday the cattle futures made strong declines and never recovered. There was no help after a bearish cattle on feed report. Boxed beef prices continued to fall and slaughter cattle prices followed.

Supply consisted of 100 percent over 600 lbs. Heifers comprised 62 percent of supply.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and a 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

**OKLAHOMA HAY REPORT
(2-03-05)**

ALFALFA HAY: Movement and demand has increased with steady prices. Producers have been feeding supplemental hay to cattle this past week due to the colder winter weather. Most of the state is saturated with moisture at this time making it hard for many producers to get around. Cattle grazing on wheat are not gaining as well as expected due to all the rains.

GRASS HAY: Prices are steady and movement is moderate. Many producers continue to feed grass hay to cattle to mix with wheat pasture rations. Many producers are starting to get anxious for placing fertilizer on wheat with the window of time getting shorter if drier weather does not come soon.

ALFALFA:

CENTRAL AND WESTERN OKLAHOMA: Premium quality large squares 100.00-120.00 per ton. Small squares 100.00-120.00 per ton. Good quality large squares 90.00-110.00, small squares 100.00-110.00/ton. PANHANDLE AND WESTERN FEEDLOT AREA: Good grinding alfalfa at the edge of the field or bale pile (spot) 60.00-70.00 a ton. Chopped and delivered to feedlots (short haul) 85.00-105.00 per ton.

CENTRAL AND WESTERN OKLAHOMA: Premium quality large squares 100.00-120.00 per ton. Small squares 100.00-120.00 per ton. Good quality large squares 90.00-110.00, small squares 100.00-110.00/ton. Good large rounds 80.00-90.00. Fair quality large squares 70.00-85.00 per ton. Fair large rounds 70.00-80.00 a ton.

CENTRAL AND EASTERN OKLAHOMA: Wheat hay in large round bales 30.00-40.00 a ton.

PANHANDLE AND WESTERN FEEDLOT AREA:

**OKLAHOMA RANGE SALES
(3-1-05)**

Sales this week: 2,400 Last week: 2,085 Last Year: 14,400

Compared to last week: Feeder cattle 2.00 lower. Demand uneven as a rollercoaster of a market has buyers and sellers alike confused on pricing cattle. Wheat cattle definitely on the move though numbers don't show in the country. Some cattle were previously contracted or sellers have found other means of marketing cattle this year.

Weather continues wet and muddy so the farmer has had to look for any open weather to ship cattle.

Supply consisted of 100 percent over 600 lbs. Heifers comprised 45 percent of supply.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and a 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

Summary for Feb 19, thru Mar 1, 2005

**OKLAHOMA HAY REPORT
(3-2-05)**

ALFALFA HAY: Trade activity and demand for hay is slow this past week. Muddy soil conditions continue for cattle on wheat with great surplus of moisture in most areas. Wet conditions have made it hard for producers to take heavier weight cattle to auctions.

GRASS HAY: Movement and demand for grass hay is slow. Supplemental hay continues to be fed to cattle on wheat pasture in some instances. Many producers have been working at getting fertilizer on wheat but the wet weather the last couple of weeks has been making it hard for fertilizer placement.

ALFALFA:

CENTRAL AND WESTERN OKLAHOMA: Premium quality large squares 100.00-120.00 per ton. Small squares 100.00-120.00 per ton. Good quality large squares 90.00-110.00, small squares 100.00-110.00/ton. Good large rounds 80.00-90.00. Fair quality large squares 70.00-85.00 per ton. Fair large rounds 70.00-80.00 a ton.

WHEAT HAY:

CENTRAL AND EASTERN OKLAHOMA: Wheat hay in large round bales 30.00-40.00 a ton.

PANHANDLE AND WESTERN FEEDLOT AREA:

Good grinding alfalfa at the edge of the field or bale pile (spot) 50.00-65.00 a ton. Chopped and delivered to feedlots (short haul) 80.00-95.00 per ton.

GRASS HAY:

CENTRAL AND EASTERN OKLAHOMA: Premium quality large squares 70.00-80.00 a ton, small squares 70.00-80.00 per ton. Good quality small squares 65.00-75.00 per ton. Premium quality large rounds 60.00-70.00. Good quality large rounds 50.00-60.00 per ton. Fair quality 40.00-50.00 per ton.

**OKLAHOMA HAY REPORT
(3-24-05)**

ALFALFA HAY: Hay prices are steady with trade activity and demand light to moderate. In most areas of the state soil moisture is adequate. Rain and snow is forecasted in some parts of the state for the coming week. This current week mild weather with warmer temperatures have allowed producers to move cattle off of winter wheat.

GRASS HAY: Demand for grass hay is slow and movement is moderate. Grass hay is being fed to stock cows on dry pastures. Some producers are taking advantage of the mild weather to begin working on equipment for summer harvest and field work.

ALFALFA:

CENTRAL AND WESTERN OKLAHOMA: Premium quality large squares 100.00-120.00 per ton. Small squares 100.00-120.00 per ton. Good quality large squares 90.00-110.00, small squares 100.00-110.00/ton. Good large rounds 80.00-90.00. Fair quality large squares 70.00-85.00 per ton. Fair large rounds 70.00-80.00 a ton.

CENTRAL AND EASTERN OKLAHOMA: Wheat hay in large round bales 30.00-40.00 a ton.

PANHANDLE AND WESTERN FEEDLOT AREA:

**OKLAHOMA RANGE SALES
(3-29-05)**

Sales: This week: 11,050 Last week: 2685 Last Year: 3975

Compared to last week: Feeder cattle steady to 2.00 higher. Demand good, especially for contracts in late summer and early fall. The volatility of the market has many contracting cattle. Lighter than normal receipts are expected in the next coming months as some believe many cattle were marketed early due to the muddy wheat fields, as well as the fear of the Canadian border opening.

Supply consisted of 100 percent over 600 lbs. Heifers comprised 17 percent of supply.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and a 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

**OKLAHOMA HAY REPORT
(3-31-05)**

ALFALFA HAY: Hay prices are steady with trade activity and demand light to moderate. Producers continue to deal with high priced fuel and fertilizer. This is planned to have a new effect on pricing for new crop hay. Hay inventories at this time have carryover from the crop last year.

GRASS HAY: Demand for grass hay is slow and movement is moderate. Many producers continue supplement feeding of grass hay to cattle on wheat pasture at this time. Producers are trying to figure out how to market cattle on wheat pasture at this time with some concerns of the Canadian border opening this summer. The winter wheat crop looks favorable in most parts of the state with good yields expected at this time.

ALFALFA:

CENTRAL AND WESTERN OKLAHOMA: Premium quality large squares 100.00-120.00 per ton. Small squares 100.00-120.00 per ton. Good quality large squares 90.00-110.00, small squares 100.00-110.00/ton. Good large rounds 80.00-90.00. Fair quality large squares 70.00-85.00 per ton. Fair large rounds 70.00-80.00 a ton.

WHEAT HAY:

CENTRAL AND EASTERN OKLAHOMA: Wheat hay in large round bales 30.00-40.00 a ton.

PANHANDLE AND WESTERN FEEDLOT AREA:

Good grinding alfalfa at the edge of the field or bale pile (spot) 50.00-65.00 a ton. Chopped and delivered to feedlots (short haul) 80.00-95.00 per ton.

GRASS HAY:

**OKLAHOMA HAY REPORT
(4-14-05)**

ALFALFA HAY: Hay prices are steady with trade activity and demand light to moderate. Some producers are feeding supplemental hay because of drier weather the last couple of weeks. The dry, windy weather is causing grass growth in pastures to be slow. Wheat for harvesting conditions looks favorable in most areas of the state at this time.

GRASS HAY: Demand for grass hay is slow and movement is moderate. Many producers continue to hold out for more moisture so spring grass pastures can start off better established.

ALFALFA:

CENTRAL AND WESTERN OKLAHOMA: Premium quality large squares 100.00-120.00 per ton. Small squares 100.00-120.00 per ton. Good quality large squares 90.00-110.00, small squares 100.00-110.00/ton. Good large rounds 80.00-90.00. Fair quality large squares 70.00-85.00 per ton. Fair large rounds 70.00-80.00 a ton.

WHEAT HAY:

CENTRAL AND EASTERN OKLAHOMA: Wheat hay in large round bales 30.00-40.00 a ton.

PANHANDLE AND WESTERN FEEDLOT AREA:

Good grinding alfalfa at the edge of the field or bale pile (spot) 50.00-65.00 a ton. Chopped and delivered to feedlots (short haul) 80.00-95.00 per ton.

GRASS HAY:

CENTRAL AND EASTERN OKLAHOMA: Premium quality large squares 70.00-80.00 a ton, small squares 70.00-80.00 per ton. Good quality small squares 65.00-75.00 per ton. Premium quality large rounds 60.00-70.00. Good quality large rounds 50.00-60.00 per ton. Fair quality 40.00-50.00 per ton.

**OKLAHOMA HAY REPORT
(4-28-05)**

ALFALFA HAY: Hay prices are steady with light demand. Cooler temperatures returned this past week, leaving frost in some areas of the northwest part of the state. Light showers were scattered in some areas, but in most parts of Oklahoma--moisture is needed for the wheat producer.

GRASS HAY: Demand for grass hay is slow and movement is moderate. Grass pastures have slowed down on growth, with lack of moisture and cooler nights returning. Producers have been marketing cattle in some instances because wheat pasture has run out with good prices available for cattle at this time.

ALFALFA:

CENTRAL AND WESTERN OKLAHOMA: Premium quality large squares 100.00-120.00 per ton. Small squares 100.00-120.00 per ton. Good quality large squares 90.00-110.00, small squares 100.00-110.00/ton. Good large rounds 80.00-90.00. Fair quality large squares 70.00-85.00 per ton. Fair large rounds 70.00-80.00 a ton.

WHEAT HAY:

CENTRAL AND EASTERN OKLAHOMA: Wheat hay in large round bales 30.00-40.00 a ton.

PANHANDLE AND WESTERN FEEDLOT AREA:

Good grinding alfalfa at the edge of the field or bale pile (spot) 50.00-65.00 a ton. Chopped and delivered to feedlots (short haul) 80.00-95.00 per ton.

GRASS HAY:

CENTRAL AND EASTERN OKLAHOMA: Premium quality large squares 70.00-80.00 a ton, small squares 70.00-80.00 per ton. Good quality small squares 65.00-75.00 per ton. Premium quality large rounds 60.00-70.00. Good quality large rounds 50.00-60.00 per ton. Fair quality 40.00-50.00 per ton.

OKLAHOMA HAY REPORT
(5-19-05)

ALFALFA HAY: Hay prices are steady with moderate demand. Producers continue to finish up on first cuttings of alfalfa. The first cuttings in the state are reported as high quality in most instances. Many farmers are gearing up for wheat harvest at this time. In the southwestern part of the state some producers have begun harvesting with quality of the wheat crop being reported as good.

GRASS HAY: Demand for grass hay is slow and movement is moderate. Grass pastures have dried up with above record warm temperatures this past week. Light rains are expected to help with grass pastures but many producers want dry weather so wheat harvest can start.

ALFALFA:

CENTRAL AND WESTERN OKLAHOMA: Premium quality large squares 100.00-120.00 per ton. Small squares 100.00-120.00 per ton. Good quality large squares 90.00-110.00, small squares 100.00-110.00/ton. Good large rounds 80.00-90.00. Fair quality large squares 70.00-85.00 per ton. Fair large rounds 70.00-80.00 a ton.

WHEAT HAY:

CENTRAL AND EASTERN OKLAHOMA: Wheat hay in large round bales 30.00-40.00 a ton.

PANHANDLE AND WESTERN FEEDLOT AREA:

Good grinding alfalfa at the edge of the field or bale pile (spot) 50.00-65.00 a ton. Chopped and delivered to feedlots (short haul) 80.00-95.00 per ton.

GRASS HAY:

CENTRAL AND EASTERN OKLAHOMA: Premium quality large squares 70.00-80.00 a ton, small squares 70.00-80.00 per ton. Good quality small squares 65.00-75.00 per ton. Premium quality large rounds 60.00-70.00. Good quality large rounds 50.00-60.00 per ton. Fair quality 40.00-50.00 per ton.

OKLAHOMA HAY REPORT
(6-16-05)

ALFALFA HAY: Hay demand is moderate and prices steady. Hot dry weather has returned to the state this last week. The drier weather is allowing producers to continue with second cuttings of alfalfa.

Wheat harvest is 80% finished with higher yields reported than what was expected for this season. Producers are starting to catch up on summer field work and continue to deal with high fuel prices at this time.

GRASS HAY: Demand for grass hay is slow and movement is moderate. Pasture grasses at this time look green and healthy with all the moisture received this last month. Producers in some areas are making room for starting cattle at this time.

ALFALFA:

CENTRAL AND WESTERN OKLAHOMA: Premium quality large squares 100.00-120.00 per ton. Small squares 100.00-120.00 per ton. Good quality large squares 90.00-110.00, small squares 100.00-110.00/ton. Good large rounds 80.00-90.00. Fair quality large squares 70.00-85.00 per ton. Fair large rounds 70.00-80.00 a ton.

WHEAT HAY:

CENTRAL AND EASTERN OKLAHOMA: Wheat hay in large round bales 30.00-40.00 a ton.

PANHANDLE AND WESTERN FEEDLOT AREA:

OKLAHOMA HAY REPORT
(6-23-05)

ALFALFA HAY: Hay demand is moderate and prices steady. Hot dry weather has returned to the state this last week. The drier weather is allowing producers to continue with second cuttings of alfalfa. Wheat harvest is 80% finished with higher yields reported than what was expected for this season. Producers are starting to catch up on summer field work and continue to deal with high fuel prices at this time.

GRASS HAY: Demand for grass hay is slow and movement is moderate. Pasture grasses at this time look green and healthy with all the moisture received this last month. Producers in some areas are making room for starting cattle at this time.

OKLAHOMA HAY REPORT
(7-28-05)

Production cost continue to be discussed with fuel and fertilizer prices causing producers to look at alternative ways to cheapen fuel bills.

GRASS HAY: Movement of grass hay is moderate and prices are steady. Some producers are still cutting grass hay at this time but drier weather is causing slower growth of Bermuda and prairie hay.

GRASS HAY: Movement of grass hay is moderate and prices are steady. Some producers are still cutting grass hay at this time but drier weather continues to slow growth of Bermuda and prairie hay.

OKLAHOMA HAY REPORT
(8-18-05)

ALFALFA HAY: Prices are steady and demand moderate. Rain showers have passed through most areas leaving adequate amounts of moisture behind. The wet weather has stopped alfalfa and prairie hay harvest at this time. Fuel prices continue to rise, putting pressure on producers to lock in fertilizer for wheat sowing this fall.

GRASS HAY: Movement of grass hay is moderate and prices are steady. Grass pastures and meadows used for cutting and grazing look way above average with much vegetation available due to moisture received this past week. Rain showers are still forecasted for the coming week making producers anxious to get back into the field so preparation for wheat sowing can begin.

OKLAHOMA HAY REPORT
(8-25-05)

ALFALFA HAY: Prices are steady and demand moderate. Rain showers have passed through most areas leaving adequate amounts of moisture behind. The wet weather has stopped alfalfa and prairie hay harvest at this time. Fuel prices continue to rise, putting pressure on producers to lock in fertilizer for wheat sowing this fall.

GRASS HAY: Movement of grass hay is moderate and prices are steady. Grass pastures and meadows used for cutting and grazing look way above average with much vegetation available due to moisture received this past week. Rain showers are still forecasted for the coming week making producers anxious to get back into the field so preparation for wheat sowing can begin.

OKLAHOMA HAY REPORT
(9-15-05)

ALFALFA HAY: Prices are steady with light to moderate demand. Many producers are looking at getting one last cutting from alfalfa fields due to the abundant moisture and warmer weather. Farmers have been in the field busy planting wheat, but they are now starting to slow the tractors down until Rita moves thru. Weather forecasters predict 4 to 6 inches of rain this coming weekend.

GRASS HAY: Movement of grass hay is moderate and prices are steady. Many producers have grass pastures and meadows baled at this time. Producers continue to start cattle on grass for winter wheat grazing. Fuel and fertilizer cost continue to pressure producers and transporters.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and a 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

OKLAHOMA HAY REPORT
(11-10-05)

ALFALFA HAY: Prices are steady and movement of alfalfa hay is moderate. An arctic front moved through the state this past week causing all regions to have significant temperature drops with most areas below freezing at night. Producers continue to feed alfalfa hay to cattle for supplemental feeding.

GRASS HAY: Prices of grass hay are steady and movement is moderate. Producers are slowing down the starting of stocker cattle for wheat pasture with the dry weather. Rangeland and pastures are in fair condition with supplemental feeding for cattle taking place due to lack of growth in crops. Cold temperatures continue to have a negative impact on the drought stricken crops used for winter grazing.

Producers with cattle continue to hope for rain for drought stricken wheat pastures. Producers looking for information for the selling and buying of hay can call the Oklahoma Department of Agriculture hay hotline at 1-800-580-6543.
