Sales This week: None Last Week: 547 Last Year: 3410

Compared to last Week: Feeder cattle not tested. Demand and seller interest light. Another winter storm in the state has shut down movement of livestock and left most feedlots in no position to receive fresh cattle. Also, strong upward moves for corn prices and lower cattle futures have the industry wondering what the market really is. Most, if not all sale barns across the state are closed this week as the area waits for warmer temperatures to melt the heavy coat of ice left by last week's storm.

Sales: This week: 7,241 Last week: 3,342 Last Year: 3,428

Compared to last week: Feeder cattle steady to 5.00 higher most advance on those over 800 lbs. Demand continues good. Many cattle are being cleaned up off wheat a little sooner than in previous years and numbers could be drastically lighter come next week. Forward contract continues to entice producers as out front months in the cattle futures remain a plus to the current cash market. March winds continue to blow drying out much of the state as most of Oklahoma remains under high fire danger. Hoping Mother Natures March winds will bring April showers!

Supply consisted of 100% over 600 lbs. Heifers comprised 18% of supply.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and a 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

Compared to last week: Feeder cattle steady to 3.00 higher. Demand continues good for country cattle though it seems the March run is slowing down. Nice beneficial rains fell across much of southern and central Oklahoma the past two days and pastures are beginning to look like spring.

Supply consisted of 99% over 600 lbs. Heifers comprised 39% of supply.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and a 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

Sales: This week: 2,707 Last week: 2,575 Last Year: 1,660

Compared to last week: Feeder cattle lightly tested and steady. Bulk of the trades contracted for May delivery or early summer. Interest remains high for forward contracts as cattle futures continue at a premium to the cash trade. March went down as one of the wettest and warmest Marches on record in the state of Oklahoma. This evident by the lush grass and wheat pastures.

Supply consisted of 100% over 600 lbs. Heifers comprised 88% of supply.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and a 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

**OKLAHOMA HAY  
(4/12/07)**

**OKLAHOMA RANGE SALES REPORT  
(4/17/07)**

Sales: This week: 2,992 Last week: 2,535 Last Year: 5,128

**ALFALFA HAY:** Alfalfa hay prices are steady and movement is moderate. Alfalfa is starting to come on in most areas, but growth has slowed due to the cooler temperatures this past week. Most of the state has received nice rains, with warmer temperatures predicted for the coming week. Wheat is headed out in most areas of Southern and central Oklahoma at this time. Some freeze damage has been reported, but in most places it is too soon to determine how much effect it will have on the overall yield.

**GRASS HAY:** Grass hay prices are steady and movement is slow. All classes of hay are in short supply. Producers looking for hay to purchase or have hay for sale can access the hay directory on the Oklahoma Department of Agriculture's website at [www.oda.state.ok.us](http://www.oda.state.ok.us) or call the Oklahoma Department of Agriculture Hay Hotline at 1-800-580-6543.

**ALFALFA**

**CENTRAL AND WESTERN OKLAHOMA:** Premium quality large squares 150.00-170.00 per ton. Small squares 160.00-180.00 per ton. Good quality large squares 140.00-150.00, small squares 140.00-160.00/ton. Good large rounds 120.00-140.00. Fair quality large squares 90.00-110.00 per ton. Fair large rounds 80.00-100.00 a ton.

**WHEAT HAY:**

**CENTRAL AND WESTERN OKLAHOMA:** Wheat hay in large round bales 80.00-90.00 a ton.

**PANHANDLE AND WESTERN FEEDLOT AREA:** Good grinding alfalfa at the edge of the field or bale pile (spot) 105.00-120.00 a ton. Chopped and delivered to feedlots (short haul) 140.00-150.00 per ton.

**GRASS HAY:**

**CENTRAL AND EASTERN OKLAHOMA:** Premium quality large squares 90.00-110.00 a ton, small squares 90.00-110.00 per ton. Good quality small squares 80.00-100.00 per ton. Premium quality large rounds 90.00-110.00. Good quality large rounds 80.00-100.00 per ton. Fair quality 60.00-80.00 per ton.

Compared to last week: Feeder cattle not well tested this week. Buyers finding it hard to price cattle in the country after last weeks decline in the cattle futures. Farmers still looking for the market of a week ago. Some feedlots only buying immediate needs. Corn prices continue to fluctuate as is normal for this time of year and this causing feedlots to only price corn two weeks out. April showers continue to move across the state but colder temperatures have been on the backside of these storms with snow showers falling in northern Oklahoma over the weekend. Wheat conditions still questionable following the freezing temperatures and we probably won't know the damage until harvest.

Supply consisted of 100% over 600 lbs. Heifers comprised 0% of supply.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and a 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

**OKLAHOMA HAY  
(4/25/07)**

**OKLAHOMA RANGE SALES REPORT  
(4/24/07)**

**ALFALFA HAY:** Alfalfa hay prices are steady and movement is slow. First cutting of alfalfa has been slowed due to wet cooler weather. Most areas of the state have good moisture at this time. **GRASS HAY:** Grass hay prices are steady and movement is slow. Cooler temperatures have slowed grass growth.. Producers looking for hay to purchase or have hay for sale can access the hay directory on the Oklahoma Department of Agriculture's website at [www.oda.state.ok.us](http://www.oda.state.ok.us) or call the Oklahoma Department of Agriculture Hay Hotline at 1-800-580-6543.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and a 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

OKLAHOMA HAY REPORT  
(5/1/07)

OKLAHOMA RANGE SALES REPORT  
(5/15/07)

ALFALFA HAY: Alfalfa hay movement is slow and prices are steady. Scattered showers continued across the state over the weekend and first part of the week, continuing to slow hay cutting. Sunshine the past couple of days has increased hay cutting activity. A limited amount of trade of new crop continues.

GRASS HAY: Grass hay prices are steady and movement is slow. The drier weather the last few days have allowed grass hay producers to get in meadows. Producers looking for hay to purchase or have hay for sale can access the hay directory on the Oklahoma Department of Agriculture's website at [www.oda.state.ok.us](http://www.oda.state.ok.us) or call the Oklahoma Department of Agriculture Hay Hotline at 1-800-580-6543.

OKLAHOMA HAY REPORT  
(5/23/07)

OKLAHOMA RANGE SALES REPORT  
(5/22/07)

**ALFALFA HAY:** Alfalfa hay movement is slow and prices are steady. Producers were able to get into hay fields this past weekend. Heavy rains moved across the state mid-week, slowing hay activities. A limited amount of trade of new crop continues with the trade still trying to determine new crop prices. Wheat harvest has started in the extreme southwest part of the state, but has been slowed due to cloudy wet weather.

**GRASS HAY:** Grass hay prices are steady and movement is slow. Producers have been able to cut and bale some grass hay this past week. Most hay is being stored to replenish empty barns. Producers looking for hay to purchase or have hay for sale can access the new hay directory on the Oklahoma Department of Agriculture's website at [www.oda.state.ok.us](http://www.oda.state.ok.us) or call the Oklahoma Department of Agriculture Hay Hotline at 1-800-580-6543.

OKLAHOMA HAY REPORT  
(6/06/07)

ALFALFA HAY: Alfalfa hay movement is slow to moderate and prices are steady, with a weaker undertone. Warmer temperatures and strong winds since the weekend have allowed producers to get in hay fields. The trade is still searching for a new crop price level. Hay quality is varied from one extreme to the other. Wheat harvest is getting into full swing, with cutting from the Kansas line to the Red River. Test weights and yields are disappointing in many areas.

GRASS HAY: Grass hay prices are steady and movement slow. With the open weather this week, producers are able to get into hay meadows. Producers looking for hay to purchase or have hay for sale can access the new hay directory on the Oklahoma Department of Agriculture's website at [www.oda.state.ok.us](http://www.oda.state.ok.us) or call the Oklahoma Department of Agriculture Hay Hotline at 1-800-580-6543.

OKLAHOMA RANGE SALES REPORT  
(6/05/07)

Confirmed: This week: 2110 Last week: 4110 Last Year:3736

Compared to last Tuesday: Feeder cattle lightly tested and mostly steady. Demand moderate as the wheat run has is drawing to a close. Farmers have just begun harvest in the state but early crop yields quite a bit lower than expected. The late freeze put the hurt on wheat pastures but we really won't know the extent until harvest is complete. Country bids have declined as some feedlots are reportedly full and area markets are coming in lower.

Supply consisted of 91% over 600 lbs. Heifers comprised 33% of supply. Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and a 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

OKLAHOMA HAY REPORT  
(6/13/07)

**ALFALFA HAY:** Alfalfa hay movement is moderate and prices are steady. Scattered showers have continued over the state with storms developing mid week. These heavy rains and strong winds have slowed hay cutting and wheat harvest. The trade is still searching for a new crop price level. Wheat harvest is winding up in the southwest part of the state, but reports from central and northern parts of the state are very disappointing with a lot of fields being zeroed out by insurance adjustors.

**GRASS HAY:** Grass hay prices are steady and movement is moderate. Activity has increased in hay meadows this week, as producers have been able to get some hay cut and baled. Producers looking for hay to purchase or have hay to sell can access the new hay directory on the Oklahoma Department of Agriculture's website at [www.oda.state.ok.us](http://www.oda.state.ok.us) or call the Oklahoma Department of Agriculture Hay Hotline at 1-800-580-6543.

**WHEAT HAY:**

**CENTRAL AND WESTERN OKLAHOMA:** Wheat hay in large round bales 70.00-80.00 a ton.

OKLAHOMA RANGE SALES REPORT  
(6/12/07)

Compared to last Tuesday: Feeder steers not well tested. Feeder heifers not tested. Trading very light as cattle futures have declined making it difficult to price cattle and complete the deal on a lower trending futures market. Wheat harvest in full swing with much of the yields well below average. Rains continue to hamper the progress of wheat harvest as well, but on the other hand grass pastures are in tremendous shape.

Supply consisted of 100% over 600 lbs. Heifers comprised 0% of supply.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and a 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

OKLAHOMA HAY REPORT  
(6/27/07)

OKLAHOMA RANGE SALES REPORT  
(6/26/07)

**ALFALFA HAY:** Alfalfa hay movement is slow and prices are steady. A low pressure system has been covering the state this past week, causing heavy rains to cover the entire state. Hay cutting and wheat harvest has been at a stand still, except in the Panhandle region. Hay that has not been rained on is the exception.

**GRASS HAY:** Grass hay movement is slow and prices are steady. Hay meadows continue to be rain soaked, preventing hay cutting activities. Producers looking for hay to purchase or have hay to sell can access the new hay directory on the Oklahoma Department of Agriculture's website at [www.oda.state.ok.us](http://www.oda.state.ok.us) or call the Oklahoma Department of Agriculture Hay Hotline at 1-800-580-6543.

Confirmed: This week: 2150 Last week: 1825  
Last Year 18,263

Compared to last Tuesday: Feeder steers and heifers not well tested, weak undertone prevails. Demand moderate for light supplies. Rain continues to fall across much of the state on a daily basis. Annual rainfall now way ahead of normal but most people are slow to complain.

Supply consisted of 100% over 600 lbs. Heifers comprised 20% of supply.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and a 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

OKLAHOMA HAY REPORT  
(7/11/07)

OKLAHOMA RANGE SALES REPORT  
(7/10/07)

**ALFALFA HAY:** Alfalfa hay prices are steady and movement is slow to moderate. It continues to rain across the state, with the exception of the Panhandle. Hay cutting and wheat harvest have continued to be slowed due to the extreme wet conditions.

**GRASS HAY:** Grass hay movement is moderate and prices are steady. Grass hay continues to make excellent growth, but producers are having difficulty getting hay cut and baled. Producers looking for hay to purchase or have hay to sell can access the new hay directory on the Oklahoma Department of Agriculture's website at [www.oda.state.ok.us](http://www.oda.state.ok.us) or call the Oklahoma Department of Agriculture Hay Hotline at 1-800-580-6543.

#### WHEAT HAY:

**CENTRAL AND WESTERN OKLAHOMA:** Wheat hay in large round bales 70.00-80.00 a ton.

Confirmed: This week:3250 Last week: 3750 Last Year: 5030

Compared to last Tuesday: Feeder cattle not tested. Cattle market made a quick move upward in a short period of time. Demand very good from some feedlots as they are needing to fill empty pens, others would rather wait until the market settles some before putting up the higher money. Rains continue to fall in Oklahoma with many spots still flooding. Mosquito harvest will begin soon!

Supply consisted of 67% over 600 lbs. Heifers comprised 15% of supply.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and a 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

OKLAHOMA HAY REPORT  
(8/29/07)

OKLAHOMA RANGE SALES REPORT  
(8/28/07)

### Oklahoma Hay Report

Confirmed: This week: 4960 Last week: 3416 Last Year: 2792

**ALFALFA HAY:** Alfalfa hay prices are steady and movement is slow to moderate. After rains the end of last week, drier conditions have prevailed this week. These conditions have allowed some drying of fields and meadows allowing hay cutting and wheat seedbed preparation to progress.

Compared to last Tuesday: Feeder cattle not well tested this week. Numbers light as many cattle have already moved off summer grass. Some farmers already busy in the field planting wheat. Supply included 83 percent over 600 lbs and 32 percent heifers.

**GRASS HAY:** Grass hay movement is slow and prices are steady to weak. Large amounts of grass hay have come on the market this past week, but a limited amount is moving. Producers looking for hay to purchase or have hay to sell can access the new hay directory on the Oklahoma Department of Agriculture's website at [www.oda.state.ok.us](http://www.oda.state.ok.us) or call the Oklahoma Department of Agriculture Hay Hotline at 1-800-580-6543.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and a 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

OKLAHOMA HAY REPORT  
(9/26/07)

OKLAHOMA RANGE SALES REPORT  
(9/25/07)

Confirmed: This week:1942 Last week: 5020 Last Year: 1730

**ALFALFA HAY:** Alfalfa hay prices are steady and movement is slow to moderate. Warmer dry conditions prevailed over the state most of this past week with a few scattered showers and fog behind a cool front that moved across the state at mid-week. Wheat planting continues with some areas in need of a rain. Cutting of alfalfa continues.

**GRASS HAY:** Grass hay movement continues slow and prices remain steady to weak. Many producers have large quantities of hay in storage. Producers looking for hay to purchase or have hay to sell can access the new hay directory on the Oklahoma Department of Agriculture's website at [www.oda.state.ok.us](http://www.oda.state.ok.us) or call the Oklahoma Department of Agriculture Hay Hotline at 1-800-580-6543.

**ALFALFA CENTRAL AND WESTERN OKLAHOMA:** Premium quality large squares 130.00-150.00 per ton. Small squares 140.00-160.00 per ton. Good quality large squares 100.00-120.00, small squares 110.00-130.00/ton. Good large rounds 90.00-110.00. Fair quality large squares 70.00-90.00 per ton. Fair large rounds 65.00-85.00 a ton.

**WHEAT HAY:**  
CENTRAL AND WESTERN OKLAHOMA: Wheat hay in large round bales 70.00-80.00 a ton.

**PANHANDLE AND WESTERN FEEDLOT AREA:** Good grinding alfalfa at the edge of the field or bale pile (spot) 70.00-85.00 a ton. Chopped and delivered to feedlots (short haul) 90.00-110.00 per ton.

**GRASS HAY:**  
CENTRAL AND EASTERN OKLAHOMA: Premium quality large squares 70.00-90.00 a ton, small squares 80.00-100.00 per ton. Good quality small squares 70.00-90.00 per ton. Premium quality large rounds 70.00-90.00. Good quality large rounds 60.00-80.00 per ton. Fair quality 50.00-70.00 per ton.

Compared to last Tuesday: Feeder cattle and calves not well tested. Buyer inquiry moderate and interest at current price levels is low. Many farmers are busy drilling wheat and feedlots are hesitant to price cattle because of the uncertainty in the direction of the corn market.

Supply included 76 percent over 600 lbs and 20 percent heifers.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and a 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

OKLAHOMA HAY REPORT  
(10/10/07)

OKLAHOMA RANGE SALES REPORT  
(10/09/07)

Confirmed: This week:1345 Last week: 3200 Last Year: 975

**ALFALFA HAY:** Alfalfa hay prices are steady and movement is slow to moderate. Cooler more seasonable temperatures have occurred this past week. Moisture would be welcome in most areas of the state. Wheat planting is about 50 percent complete with many producers waiting on rain. Alfalfa hay activity is in the final cutting stage.

**GRASS HAY:** Grass hay movement is slow and prices are steady. Grass hay supplies are abundant in all areas of the state. Producers looking for hay to purchase or have hay to sell can access the new hay directory on the Oklahoma Department of Agriculture's website at [www.oda.state.ok.us](http://www.oda.state.ok.us) or call the Oklahoma Department of Agriculture Hay Hotline at 1-800-580-6543.

**ALFALFA CENTRAL AND WESTERN OKLAHOMA:** Premium quality large squares 130.00-150.00 per ton. Small squares 140.00-160.00 per ton. Good quality large squares 100.00-120.00, small squares 110.00-130.00/ton. Good large rounds 90.00-110.00. Fair quality large squares 70.00-90.00 per ton. Fair large rounds 65.00-85.00 a ton.

**WHEAT HAY:**  
**CENTRAL AND WESTERN OKLAHOMA:** Wheat hay in large round bales 70.00-80.00 a ton.

**PANHANDLE AND WESTERN FEEDLOT AREA:** Good grinding alfalfa at the edge of the field or bale pile (spot) 70.00-85.00 a ton. Chopped and delivered to feedlots (short haul) 90.00-110.00 per ton.

**GRASS HAY:**  
**CENTRAL AND EASTERN OKLAHOMA:** Premium quality large squares 70.00-90.00 a ton, small squares 80.00-100.00 per ton. Good quality small squares 70.00-90.00 per ton. Premium quality large rounds 70.00-90.00. Good quality large rounds 60.00-80.00 per ton. Fair quality 50.00-70.00 per ton.

Compared to last Tuesday: Feeder cattle not tested and calves lightly tested. Cattle market in a slump and farmers busy in the fields so interest in dealing on cattle is nil. Farmers waiting for a shower before planting wheat received that gift Monday. A high pressure system has set up over much of the Midwest and wheat planting should progress nicely this week.

Supply included 85 percent over 600 lbs and 58 percent heifers.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and a 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

Compared to last Tuesday: Feeder cattle and calves not tested. Today's receipts made up of a few loads of fancy northern bred heifers, otherwise most of the sales from last Fridays business. Supply included 96 percent over 600 lbs and 14 percent heifers.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and a 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

OKLAHOMA HAY REPORT  
(11/14/07)

OKLAHOMA RANGE SALES REPORT  
(11/13/07)

**ALFALFA HAY:** Alfalfa hay movement is slow to moderate and prices steady. The whole state is in need of a good rain. Several dry cool fronts have passed through the state this past week, leaving behind strong winds and cooler temperatures. Wheat planting is completed in most of the state.

**GRASS HAY:** Grass hay prices are steady to weak and movement continues slow. Large amounts of grass hay continue in storage, with a very limited amount of movement. Producers looking for hay to purchase or have hay to sell can access the new hay directory on the Oklahoma Department of Agriculture's website at [www.oda.state.ok.us](http://www.oda.state.ok.us) or call the Oklahoma Department of Agriculture Hay Hotline at 1-800-580-6543.

**ALFALFA CENTRAL AND WESTERN OKLAHOMA:** Premium quality large squares 130.00-150.00 per ton. Small squares 140.00-160.00 per ton. Good quality large squares 100.00-120.00, small squares 110.00-130.00/ton. Good large rounds 90.00-110.00. Fair quality large squares 70.00-90.00 per ton. Fair large rounds 65.00-85.00 a ton.

**WHEAT HAY:**  
**CENTRAL AND WESTERN OKLAHOMA:** Wheat hay in large round bales 70.00-80.00 a ton.

**PANHANDLE AND WESTERN FEEDLOT AREA:** Good grinding alfalfa at the edge of the field or bale pile (spot) 70.00-85.00 a ton. Chopped and delivered to feedlots (short haul) 90.00-110.00 per ton.

**GRASS HAY:**  
**CENTRAL AND EASTERN OKLAHOMA:** Premium quality large squares 70.00-90.00 a ton, small squares 80.00-100.00 per ton. Good quality small squares 70.00-90.00 per ton. Premium quality large rounds 70.00-90.00. Good quality large rounds 60.00-80.00 per ton. Fair quality 50.00-70.00 per ton.

Trade period reflects Nov 7 through November 13, 2007 and Summary for November 3 through November 13, 2007.

Confirmed: This week: 3917 Last week:1949 Last Year: 2200

Compared to last Tuesday: Feeder cattle and calves not tested for this reporting period. Feedlot bids quite a bit cheaper than a few months ago for current deliveries and farmers not willing to accept. Feedlots also not willing to take the risk of an out front contract because of the uncertainty in the grain markets as well as other commodities. Despite the record rainfall across the state this past year, the rains have seemed to stop and many wheat pastures are in need of a good rain.

Supply included 92 percent over 600 lbs and 33 percent heifers.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and a 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.
