OKLAHOMA HAY REPORT
(01/23/08)

OKLAHOMA DIRECT FEEDER CATTLE SALES
(01/18/08)

Trade period reflects Jan 12-18, 2008.

Confirmed: 2410 Last Week: 2664 Last Year: none

ALFALFA HAY: Alfalfa hay movement is moderate and prices are steady. Colder temperatures have prevailed across the state this past week. Very little precipitation has occurred, except in isolated areas. Grazing of wheat pasture is limited in most areas.

Compared to last Friday: Feeder cattle mostly 2.00 lower in a light test. Demand moderate with many feedlots full or faced with an ever increasing cost of feed and a lower fat cattle market. Supplies moderate but most sellers reluctant to take the current offers. Out front market running significantly higher than current bids. Corn prices rose sharply early in the week but have backed off in the last couple of days.

GRASS HAY: Grass hay prices are steady and movement is slow. Large amounts of grass hay are in storage in all sections of the state. Producers looking for hay to purchase or have hay to sell can access the new hay directory on the Oklahoma Department of Agriculture's website at www.oda.state.ok.us or call the Oklahoma Department of Agriculture Hay Hotline at 1-800-580-6543.

Supply consisted of 92% over 600 lbs. Heifers comprised 32% of supply.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

Producers looking for hay to purchase or have hay to sell can access the new hay directory on the Oklahoma Department of Agriculture's website at www.oda.state.ok.us or call the Oklahoma Department of Agriculture Hay Hotline at 1-800-580-6543.

Trade period reflects Feb 23-29, 2008.

Confirmed: 2900 Last Week: 2770 Last Year: 5100

Compared to last Week: Feeder cattle mostly steady to 1.00 lower for current delivery. Demand good for fairly light supplies. Good buyer inquiry but many owners unwilling to take current bids. Out front market is still running significantly higher than current prices as spring supplies expected to be light. Supply included 100 percent over 600 lbs and 27 percent heifers.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

OKLAHOMA HAY REPORT
(03/12/08)

OKLAHOMA DIRECT FEEDER CATTLE SALES
(03/07/08)

ALFALFA HAY: Alfalfa hay prices are steady movement is slow. Warmer more seasonable temperatures have prevailed across the state this week. All areas of the state would welcome any form of moisture, especially the western parts of the state. Wheat fields are at or approaching first hollow stem. Producers going for a grain crop have pulled most of the cattle off of wheat fields.

GRASS HAY: Grass hay movement is slow and prices are steady. Inventories of grass hay continue very high over the state. Producers looking for hay to purchase or have hay to sell can access the new hay directory on the Oklahoma Department of Agriculture's website at www.oda.state.ok.us or call the Oklahoma Department of Agriculture Hay Hotline at 1-800-580-6543.

ALFALFA
CENTRAL AND WESTERN OKLAHOMA: Premium quality large squares 130.00-150.00 per ton. Small squares 140.00-160.00 per ton. Good quality large squares 100.00-120.00, small squares 110.00-130.00/ton. Good large rounds 90.00-110.00. Fair quality large squares 70.00-90.00 per ton. Fair large rounds 65.00-85.00 a ton.

WHEAT HAY:
CENTRAL AND WESTERN OKLAHOMA: Wheat hay in large round bales 70.00-80.00 a ton.

PANHANDLE AND WESTERN FEEDLOT AREA: Good grinding alfalfa at the edge of the field or bale pile (spot) 65.00-85.00 a ton. Chopped and delivered to feedlots (short haul) 90.00-110.00 per ton.

GRASS HAY:
CENTRAL AND EASTERN OKLAHOMA: Premium quality large squares 60.00-80.00 a ton, small squares 70.00-90.00 per ton. Good quality small squares 60.00-80.00 per ton. Premium quality large rounds 60.00-80.00. Good quality large rounds 50.00-70.00 per ton. Fair quality 40.00-60.00 per ton.

Trade period reflects Mar 01-07, 2008.

Confirmed: 2200 Last Week: 2900 Last Year: 9267

Compared to last Week: Feeder cattle mostly 2.00-3.00 lower for current delivery. Demand moderate for fairly light supplies. Good buyer inquiry but many owners unwilling to take current bids. Heavy runs in many area sale barns satisfied much of the demand this week. Almost daily declines in futures prices made board based trading difficult. Out front prices continue to run significantly higher than current prices as spring supplies expected to be light. Supply included 100 percent over 600 lbs and 24 percent heifers.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

OKLAHOMA HAY REPORT
(03/19/08)

ALFALFA HAY: Alfalfa hay movement is slow to moderate and prices steady. Beneficial rainfall fell across the state the first of the week. Most all areas received from one inch to as much as seven inches. The extreme Western and Panhandle regions only received small amounts of moisture. This rainfall was very timely for wheat fields in the state as they break dormancy and start rapid growth.

GRASS HAY: Grass hay prices are steady and movement continues very slow. Large quantities of grass hay will probably be carried over this year. Producers looking for hay to purchase or have hay to sell can access the new hay directory on the Oklahoma Department of Agriculture's website at www.oda.state.ok.us or call the Oklahoma Department of Agriculture Hay Hotline at 1-800-580-6543.

ALFALFA

CENTRAL AND WESTERN OKLAHOMA: Premium quality large squares 130.00-150.00 per ton. Small squares 140.00-160.00 per ton. Good quality large squares 100.00-120.00, small squares 110.00-130.00/ton. WHEAT HAY:

CENTRAL AND WESTERN OKLAHOMA: Wheat hay in large round bales 70.00-80.00 a ton.

OKLAHOMA DIRECT FEEDER CATTLE SALES
(03/14/08)

Trade period reflects Mar 08-14, 2008.

Confirmed: 4600 Last Week: 2200 Last Year: 3500

Compared to last Week: Feeder cattle steady to 2.00 lower for current delivery. Demand moderate for fairly light supplies. Good buyer inquiry but many owners unwilling to take current bids. Fairly heavy runs in many area sale barns satisfied much of the demand this week. Almost daily declines in futures prices made board based trading difficult. Out front prices continue to run significantly higher than current prices as spring supplies expected to be light. Supply included 100 percent over 600 lbs and 4 percent heifers.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

OKLAHOMA HAY REPORT
(05/07/08)

ALFALFA HAY: Alfalfa hay prices are steady and movement is slow. New crop prices have not been established. Thunderstorms moved across the state Monday through mid-week. Many areas received in excess of one inch or more rainfall. Alfalfa hay cutting has been slowed by the rains. The cooler temperatures and rain has been very beneficial to the state's wheat crop.

GRASS HAY: Grass hay movement is slow and prices steady. Grass growth has been slowed due to cooler temperatures, but have benefitted from the moisture. Producers looking for hay to purchase or have hay to sell can access the new hay directory on the Oklahoma Department of Agriculture's website at www.oda.state.ok.us or call the Oklahoma Department of Agriculture Hay Hotline at 1-800-580-6543.

OKLAHOMA HAY REPORT
(06/11/08)

ALFALFA HAY: Alfalfa hay movement is moderate and prices are steady. Strong thunderstorms produced large amounts of rain in many areas of the state this past week. The Panhandle region continues very dry. The rain has slowed wheat harvest and hay cutting in most areas. Wheat harvest is winding down in the southwest part of the state, but north central areas had just started to cut before the heavy rains prevailed. Second cutting of alfalfa is about half completed.

GRASS HAY: Grass hay prices are steady and movement is slow to moderate. Grass hay cutting has been slowed due to wet conditions. Producers looking for hay to purchase or have hay to sell can access the hay directory on the Oklahoma Department of Agriculture's website at www.oda.state.ok.us or call the Oklahoma Department of Agriculture Hay Hotline at 1-800-580-6543.

Feeder Cattle Weighted Average Report for Week of Jun 27-Jul 03, 2008.

Confirmed: 10,600 Last Week: 10,900 Last Year: 3250

Compared to last Week: Feeder steers and heifers steady to 2.00 higher. Most sales this week are for out front delivery. Most country sales continue to trade at lower levels than sale barns. Demand remains good as feedlots strive to keep pens full. Heavy movement of fat cattle last week emptied several pens. Supplies are moderate and not expected to get heavier any time soon. Cattle and grain futures continue to fluctuate without giving firm direction to the cash market, however, the deferred contracts on both fats and feeders are at a considerable premium to current prices. Fed cattle are selling sharply higher again this week. Supply consisted of 100 percent over 600 lbs and 42 percent heifers.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

OKLAHOMA HAY REPORT
(07/30/08)

ALFALFA HAY: Alfalfa hay prices are steady and movement is moderate. Remnants of hurricane Dolly brought cooler temperatures and scattered showers to the state the first part of the week. Third cutting of alfalfa is complete with some fourth cutting getting started.

GRASS HAY: Grass hay movement is slow to moderate and prices are steady. Weather conditions have slowed grass hay cutting some this past week. Producers looking for hay to purchase or have hay to sell can access the hay directory on the Oklahoma Department of Agriculture's website at www.oda.state.ok.us or call the Oklahoma Department of Agriculture Hay Hotline at 1-800-580-6543.

GRASS HAY: Grass hay prices are steady and movement is slow. Cutting and baling of hay meadows has been curtailed due to the wet weather conditions. Producers looking for hay to purchase or have hay to sell can access the hay directory on the Oklahoma Department of Agriculture's website at www.oda.state.ok.us or call the Oklahoma Department of Agriculture Hay Hotline at 1-800-580-6543.

Producers looking for hay to purchase or have hay to sell can access the hay directory on the Oklahoma Department of Agriculture's website at www.oda.state.ok.us or call the Oklahoma Department of Agriculture Hay Hotline at 1-800-580-6543.

Feeder Cattle Weighted Average Report for Week of Aug 22-28, 2008.

Confirmed: 2900 Last Week: 1228 Last Year: 3875

Compared to last Week: Feeder steers and heifers 2.00-4.00 lower though heifers lightly tested. Demand moderate to good. OKLAHOMA DIRECT FEEDER CATTLE SALES
(09/12/08)

Feeder Cattle Weighted Average Report for Week of Sep 6-12, 2008.

Confirmed: 1429 Last week: 2100 Last Year: 4400

Compared to last Week: Feeder steers selling 1.00-3.00 lower. Feeder heifers not well tested the previous week but few sales currently steady. OKLAHOMA HAY REPORT
(09/24/08)

OKLAHOMA DIRECT FEEDER CATTLE SALES
(09/19/08)

ALFALFA HAY: Alfalfa hay prices are steady and movement is moderate. Extremely pleasant weather has prevailed over the state the past week. Mild temperatures and light winds have been the norm. Wheat producers are busy planting wheat in most areas. Reports that several acres of new alfalfa have been planted this fall in central parts of the state to replace acres that were lost in last years flooding. Final cutting of alfalfa is in the wrap-up stages.

GRASS HAY: Grass hay movement is slow and prices are steady. Last cutting of grass hay is being completed in most areas. Grass hay movement continues slow on the large inventories of hay in producers lots and barns. Producers looking for hay to purchase or have hay to sell can access the hay directory on the Oklahoma Department of Agriculture's website at www.oda.state.ok.us or call the Oklahoma Department of Agriculture Hay Hotline at 1-800-580-6543.

Feeder Cattle Weighted Average Report for Week of Sep 13-19, 2008.

Confirmed: 2075 Last week: 1429 Last Year: 1870

Compared to last Week: Feeder cattle 2.00-4.00 lower. Demand moderate as the volatility of commodity and financial markets has both buyers and sellers unwilling players in the cash markets. Fortunately numbers of feeder cattle are light. Weather remains cool but grass still green thus farmers and ranchers are not forced to move calves at this time. Wheat drilling is in full swing as many fields are just dry enough to get tractors and grain drills thru. Supply consisted of 100 percent over 600 lbs; 28 percent heifers.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

OKLAHOMA HAY REPORT
(10/15/08)

OKLAHOMA DIRECT FEEDER CATTLE SALES
(10/10/08)

ALFALFA HAY: Alfalfa hay prices are steady and movement is moderate. Most areas of the state received rainfall, benefitting wheat pasture and slowing the last cutting of alfalfa. Hay cutting continues in final stages.

GRASS HAY: Grass hay prices are steady and movement is slow. Large amounts of grass hay have been cut and baled this past summer. Producers looking for hay to purchase or have hay to sell can access the hay directory on the Oklahoma Department of Agriculture's website at www.oda.state.ok.us or call the Oklahoma Department of Agriculture Hay Hotline at 1-800-580-6543.

Feeder Cattle Weighted Average Report for Week of Oct 03-09, 2008.

Confirmed: 1550 Last week: 2550 Last Year: 6550

Compared to last Week: Limited test feeder cattle 3.00-5.00 lower. Buyers and sellers continue taking a wait and see attitude in light of the uncertainty in the financial arena and volatile CME prices. Many feedyards are unable to purchase replacements and hedge them successfully. Some rain has fallen, mainly in the western side of the state which has improved wheat pasture prospects. Supply included 69 percent over 600 lbs and 48 percent heifers.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

OKLAHOMA HAY REPORT
(10/22/08)

OKLAHOMA DIRECT FEEDER CATTLE SALES
(10/17/08)

ALFALFA HAY: Alfalfa movement is moderate and prices are steady. A strong cold front moved across the state at mid-week. Most of the state received strong winds, thunderstorms, and cooler temperatures. A frost or freeze is in the forecast for the northern and western section of the state. The rain has been very beneficial for wheat producers. Wheat pasture prospects look very good in most areas. Alfalfa cutting is basically finished for the season.

GRASS HAY: Grass hay prices are steady and movement is slow. Large inventories of grass hay are in producer's barns, and hay lots. Producers looking for hay to purchase or have hay to sell can access the hay directory on the Oklahoma Department of Agriculture's website at www.oda.state.ok.us or call the Oklahoma Department of Agriculture's Hay Hotline at 1-800-580-6543.

Feeder Cattle Weighted Average Report for Week of Oct 10-16, 2008.

Confirmed: 2840 Last week: 1550 Last Year: 3554

Compared to last Week: Feeder steers steady to 1.00 lower. Feeder heifers not well tested with last week's light numbers. Seller interest very light as commodity markets remain highly volatile. Much of Oklahoma's wheat country received some badly needed rain with parts showing up to 4 inches in the rain gauge. Weather expected to be sunny and mild over the next several days. Interest in the calf market should improve. Supply included 97 percent over 600 lbs and 18 percent heifers.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

Compared to last Week: Feeder steers steady to 2.00 higher, heifers steady to weak. Demand for feeder cattle moderate after several days of pressure on the futures and a lot of volatility in other markets. Some feeding interests are now back in the market while others remain on the sidelines. A Strong cold front is pushing thru the state on Friday but is not expected to yield any moisture. Supply included 95 percent over 600 lbs and 17 percent heifers.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

OKLAHOMA HAY REPORT
(12/03/08)

OKLAHOMA DIRECT FEEDER CATTLE SALES
(11/28/08)

ALFALFA HAY: Alfalfa hay movement is slow and prices are steady. Premium alfalfa hay supplies are limited in most areas of the state. A strong cold front moved through the state at mid-week bringing the coldest temperatures of the season and strong winds. Wheat pastures could use some moisture.

GRASS HAY: Grass hay prices are steady to weak and movement is slow. Most producers report large inventories and very little inquires into sales. Producers looking for hay to purchase or have hay to sell can access the hay directory on the Oklahoma Department of Agriculture's website at www.oda.state.ok.us or call the Oklahoma Department of Agriculture Hay Hotline at 1-800-580-6543.

ALFALFA:

Good quality large squares 130.00-150.00, small squares 140.00-160.00/ton. Good large rounds 125.00-145.00. Fair quality large squares 105.00-125.00 per ton. Fair large rounds 100.00-120.00 a ton.

WHEAT HAY:

CENTRAL AND WESTERN OKLAHOMA: Wheat hay in large round bales 75.00-85.00 a ton.

PANHANDLE AND WESTERN FEEDLOT AREA: Good grinding alfalfa at the edge of the field or bale pile (spot) 115.00-130.00 a ton. Chopped and delivered to feedlots (short haul) 135.00-150.00 per ton.

GRASS HAY:
