**OKLAHOMA HAY MARKET REPORT 1-23-14**

Hay trade and movement slow. Demand mostly light to moderate despite continued cold temperatures and fairly heavy supplemental feeding. Dairy inquire extremely light as most have alfalfa needs well covered. Lack of moisture is a continuing concern not only in terms of fire danger but subsoil moisture levels very low in most areas. Many growers are now saying they will hold on to hay in anticipation of more demand later this year.

**OKLAHOMA HAY MARKET REPORT 1-30-14**

Hay trade and movement slow on light to moderate demand. Supplies of Fair to Good alfalfa are good but supplies of Premium and Supreme fairly limited. Demand remains mostly light to moderate. Snow and ice are forecast in the coming days and this will spark an increase in supplemental feeding for many livestock producers. Dry weather is a growing concern and wheat pastures desperately need moisture. Grass hay supplies are also very good but a large amount of this is of only Fair quality with some poorer hay being offered. Most movement is in small quantities moving locally.

Alfalfa Central Oklahoma: Premium quality loaded on truck at edge of field 200.00-210.00. Good quality at edge of field 150.00-180.00. Fair to Good quality alfalfa including grassy alfalfa 125.00-160.00 per ton, mostly 140.00-150.00 in large square bales, round bales 90.00-125.00. Small square bales 9.00-12.00 per bale. Small square bales 250.00-300.00 per ton.

Alfalfa Eastern Oklahoma: Fair to Good alfalfa 140.00-170.00. Good to Premium 180.00-200.00.

Western Oklahoma: Premium quality at edge of field 200.00-210.00. Fair to Good quality 140.00-165.00, mostly 150.00 in large square bales. Fair to Good quality large round bales delivered 175.00.

**Grass Hay Central Oklahoma:** Bermuda grass 4 X 5 bales 25.00-45.00 per bale. 5 X 6 bales 30.00-50.00 per bale. Prairie hay 25.00-40.00 per bale 4 X 5 bales, mostly 25.00-30.00. Small square bales mixed grass Good quality 5.00-6.00 per bale. **Western Oklahoma:** Good Bermuda grass 70.00-90.00 per ton. Good wheat hay 40.00-45.00 per 4 X 5 bale. Good quality oat hay 90.00 per ton. Good straw hay 50.00-60.00 per ton. Sorghum sudan grass 90.00 per ton, by the bale at 45.00-50.00 in 4 X 5 bales. Bluestem loaded on truck in the panhandle at 120.00-125.00. **Eastern Oklahoma:** Good mixed grass hay 4 X 5 bales 25.00-45.00 per bale. 5 X 6 bales 25.00-50.00 per bale. **OKLAHOMA HAY MARKET REPORT 2-6-14**

Hay trade very slow. Movement light to moderate. Demand mostly light. More winter storm activity visited the state this week and continues at the time of this report. Supplemental feeding extremely heavy and producers have their hands full caring for stock and keeping water supplies open. Snow amounts will likely not be enough to offset the dry weather pattern gripping the state and wheat growers are very concerned with both grazing and grain prospects. Also, a few more growers have withdrawn hay for sale in central and western counties as they say they may need it for their own use.

**OKLAHOMA HAY MARKET REPORT 3-20-14**

Alfalfa trade remained slow to mostly moderate, slightly improved over last week. Grass hay movement also improved but is still mostly slow. Inquiry increased for dairy quality alfalfa but supplies appear to be extremely light. Light to moderate rains fell over much of central and eastern Oklahoma over the weekend but amounts not enough to cure drought conditions. Warmer, windy weather afterwards has dried pastures and crops.

Alfalfa Central Oklahoma: Premium quality loaded on truck 200.00-210.00. Good quality 150.00-180.00. Fair to Good quality alfalfa including grassy alfalfa 125.00-160.00 per ton, mostly 140.00-150.00 in large square bales, round bales 90.00-125.00. Small square bales 9.00-12.00 per bale. Small square bales 250.00-300.00 per ton.

Alfalfa Eastern Oklahoma: Fair to Good alfalfa 140.00-170.00.

Western Oklahoma: Premium quality 200.00-210.00. Fair to Good quality 140.00-165.00, mostly 150.00 in large square bales. Fair quality delivered 175.00-180.00.

Grass Hay Central Oklahoma: Bermuda grass 4 X 5 bales 35.00-45.00 per bale. 5 X 6 bales 35.00-50.00 per bale, instances 60.00. Prairie hay 25.00-40.00 per bale 4 X 5 bales, mostly 30.00-35.00. Small square bales mixed grass Good quality 5.00-6.00 per bale.

**OKLAHOMA HAY MARKET REPORT 4-10-14**

Alfalfa trade slow to moderate this week as supplies are now very light. A good amount of alfalfa reported shipped in from out of state. The bulk of this is grinding hay or dry cow hay. Grass hay movement continues very light except in western Oklahoma movement moderate. Portions of the state received light rainfall this week but not enough to offset drought conditions. A cold front forecast to move into the state early next week could delay first cutting alfalfa. Growers have been fighting alfalfa aphids and infestations have been heavy.

**OKLAHOMA HAY MARKET REPORT 4-17-14**

Hay trading moderate in central and western counties, slow in eastern counties. Alfalfa demand was moderate to good while grass hay demand very light. Alfalfa supplies are very low while supplies of grass hay are fairly large. First cutting of alfalfa could begin in the next two weeks in southern Oklahoma. Drought conditions will limit yields for virtually the entire state. A late freeze this week is expected to further harm hay as well as developing wheat. Like last year, a good amount of wheat hay is expected to be baled as grain prospects are poor. 13 percent of the state is now classed as being in the exceptional drought category.

**OKLAHOMA HAY MARKET REPORT 5-15-14**

**Oklahoma Direct Feeder Cattle Trade  
5-16-14**

New crop alfalfa trade moderate this week. Demand for new crop dairy hay moderate to good and supplies light even as first cutting progresses. Yields are well below normal but quality very good. The poor wheat crop means a great deal of wheat acreage will be baled but yields are very low and some fields not deemed worth baling. A substantial amount of new crop alfalfa is going to growers' barns. Drought conditions have grown more serious this week even though many areas received light rainfall.

Receipts: 3523 Last Week: 9211 Year Ago: 8807

Compared to last week: Feeder steers mostly 3.00 to 5.00 higher on lighter offerings. Feeder heifers were lightly tested not enough for an accurate trend. Demand remains very good for feeder cattle. Receipts this week included 100 percent over 600 lbs and 22 percent heifers.

Alfalfa Central Oklahoma: Premium quality new crop in the field 235.00-250.00, mostly 240.00-250.00. Good quality old crop 160.00-180.00.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and 3-6 cent slide on yearlings from base weights.

Alfalfa Eastern Oklahoma: Premium quality new crop in the field 240.00-250.00. Fair to Good old crop alfalfa last reported 160.00-180.00.

**OKLAHOMA HAY MARKET REPORT 5-29-14**

New crop alfalfa trade moderate this week. Supplies light to moderate and demand very good. Inquiry continues to increase. A good deal of wheat hay has been baled with yields well below average and quality variable. Demand for wheat hay is good.

**OKLAHOMA HAY MARKET REPORT 6-5-14**

Alfalfa trade light to moderate this week on tight supplies. Demand and inquiry very good. Some producers started second cutting this week although rains and forecasts for rain held up some growers. Areas that received rainfall since the earlier cutting are reporting slightly improved yields. Hay brokers are already actively seeking supplies out of state. Grass hay baling slowly getting underway in southern Oklahoma but it's too early to determine yields or quality.

**OKLAHOMA HAY MARKET REPORT 6-12-14**

Alfalfa trade mostly moderate this week and movement light to moderate as widespread rains halted wheat harvest and haying activities over most of the state. Last night more rains and storms fell over a good portion of northern and central Oklahoma creating more delays. Demand very good for alfalfa, light to moderate for grass and wheat hay. Recent rainfall will not mean the state is out of the drought but brings welcome relief and improved prospects for summer pasture and hay supplies.

**OKLAHOMA HAY MARKET REPORT 6-19-14**

Alfalfa trade moderate to slow with movement mostly moderate. Rains once again delayed alfalfa baling in some areas but the additional moisture very welcome. Demand remains good for all alfalfa offerings but recent rainfall has buyers more selective than in the past few weeks. Wheat haying activities essentially finished and supplies are light. Grass hay harvest will begin to heat up over the next two to three weeks. Grass hay demand mostly moderate in central Oklahoma, good in western counties and light to moderate in eastern counties.

**OKLAHOMA HAY MARKET REPORT 6-26-14**

Alfalfa trade slow early, moderate at end of the week. Movement mostly moderate turning fairly active late. More rainfall delayed haying and wheat harvest again this week. Some second cutting alfalfa now too mature for Premium and Supreme quality but yields are excellent in most areas. Demand good for dairy quality hay, mostly moderate for other offerings. The additional rain has definitely limited demand in some areas and placed pressure on markets. Grass hay demand light to moderate on very limited offerings.

**OKLAHOMA HAY MARKET REPORT 7-3-14**

Alfalfa trade slow to moderate. Movement light to moderate with demand light to moderate for grinding hay, good for dairy hay. Additional rainfall a mixed blessing this week as it improved prospects for later cuttings but also resulted in delay of haying second cutting and in some instances produced more rain damaged hay. Sellers finding few outlets for wet hay. Additional rainfall also delaying grass hay harvest in most areas.

**OKLAHOMA HAY MARKET REPORT 7-10-14**

Alfalfa trade moderate in most areas, improved over recent weeks. Demand good for dairy hay, moderate for other offerings. Supplies of dairy hay mostly light. Supplies of Fair to Good quality alfalfa moderate to fairly heavy. A sizable amount of rain damaged an overly mature hay being offered. Grass hay cutting and baling activities began this week and widespread rains on Tuesday found a lot of acres of grass in windrows. Both yields and quality appear to be good. Demand for grass hay moderate in central and eastern counties, mostly good in western counties.

**OKLAHOMA HAY MARKET REPORT 9-18-14**

Hay supplies on the heavy side with supplies of dairy quality alfalfa moderate. Even with supplies more than adequate for current demand, hay baling continues in many areas.
