Oklahoma Direct Feeder Cattle Trade

1-9-15

Receipts: 2623 Last Week: 479 Last Year: 5862

Compared to last week: No trend available for feeder steers and heifers due to limited offerings. Demand moderate for feeder cattle. Sharp declines on both the CME Fat and Feeder Cattle contracts towards the end of the week have producers somewhat eager to sell and take what profits they can. Receipts this week included 100 percent over 600 lbs and 37 percent heifers.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and 3-6 cent slide on yearlings from base weights.

Oklahoma Direct Feeder Cattle Trade

1-16-15

Receipts: 3508 Last Week: 2623 Last Year: 8107

Compared to last week: No trend available for feeder steers or heifers due to limited comparable offerings; however, a much lower undertone noted. Demand light to moderate for feeder cattle. Sharp declines again this week on both the CME Fat and Feeder Cattle contracts have producers somewhat eager to sell and take what profits they can. Receipts this week included 100 percent over 600 lbs and 10 percent heifers.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and 3-6 cent slide on yearlings from base weights.

Oklahoma Direct Feeder Cattle Trade

3-13-15

Receipts: 6,389 Last Week: 4,815 Last Year: 6,070

Compared to last week: Feeder steers and heifers traded 3.00 to 5.00 higher. Demand good to very good for feeder cattle. Auction receipts have been extremely large this week due to the insurance wheat deadline of March 15th coupled with several weeks of winter storms that made it difficult for producers to bring cattle to auction. Receipts this week included 100 percent over 600 lbs and 43 percent heifers.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and 3-6 cent slide on yearlings from base weights.

**OKLAHOMA HAY MARKET REPORT
4-9-15**

**Oklahoma Direct Feeder Cattle Trade
4-10-15**

Hay movement very light on limited demand for all offerings. This week's movement consisted of small volumes moving from sellers needing to clean out barns for upcoming new crop. Wheat hay harvest will begin within the next week or two in western Oklahoma. Forecasts for possible rain discouraging cutting this week. Despite storms and scattered rainfall, most of the state remains dry. Eastern counties however have received a good amount of moisture which has limited movement of hay and livestock.

**OKLAHOMA HAY MARKET REPORT
4-16-15**

**Oklahoma Direct Feeder Cattle Trade
4-17-15**

Hay movement very light with sporadic trading noted as some producers sought to clear barn space for new crop. Demand was fairly light. Both wheat and alfalfa swathing will begin as soon as conditions improve. Much of the state except the panhandle received moderate to sometimes heavy rains earlier and more rain is forecast through the weekend. Drought conditions persist in western Oklahoma and portions of central Oklahoma. No new crop contracts confirmed this week but buyers and sellers are negotiating prices.

Receipts: 4353 Last Week: 4582 Last Year: 5945
Compared to last week: Feeder steers sold steady to 5.00 lower. Feeder heifers not well tested for current FOB trades. Demand moderate to good for feeder cattle. Wide spread storms across the western part of the state brought some much needed moisture but more rain is needed to reduce the drought. Receipts this week included 100 percent over 600 lbs and 36 percent heifers.
Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and 3-6 cent slide on yearlings from base weights.

**OKLAHOMA HAY MARKET REPORT
4-30-15**

**Oklahoma Direct Feeder Cattle Trade
5-1-15**

Hay movement very slow on very limited new crop offerings and light to moderate demand. Few sales of old crop dairy hay reported in southern and west central Oklahoma. More rain fell across much of the state this week but drought conditions persist in most of western Oklahoma. The wet weather hindered swathing of wheat and first cutting alfalfa but some producers were planning to begin swathing as early as today. More rain is forecast for next week so the window for haying is very small. Buyers and sellers still negotiation on new crop alfalfa.

Alfalfa

Western Oklahoma: Fair to Good Bermuda grass 5x6 bales 35.00-55.00 per bale, best quality Bermuda 60.00-65.00 per bale. Few loads Good quality Bermuda in large round bales 80.00 per ton. Prairie hay 4 X 5 bales 25.00-30.00. Wheat hay 70.00-80.00 per ton.

**OKLAHOMA HAY MARKET REPORT
5-7-15**

**Oklahoma Direct Feeder Cattle Trade
5-8-15**

Hay movement very slow. Demand light to moderate for all offerings. Rainfall several days this week was followed by severe thunderstorms and tornadoes on Wednesday. Much of central and western Oklahoma cleaning up from storms and dealing with flooding. More rainfall is forecast for the upcoming week. Very little new crop alfalfa cut but a moderate amount of wheat hay was down when the rains began. As rains delay first cutting alfalfa, producers are concerned the crop is getting too mature for dairy quality and that second cutting will also be affected in terms of yield. While drought conditions have been eased in some areas, much of far western Oklahoma is expected to remain in severe or exceptional drought.

Alfalfa

Central Oklahoma: Few loads old crop Supreme 180.00. Premium old crop not tested. Good quality old crop 120.00-125.00.

Eastern Oklahoma: Good to Premium old crop quality large round bales 120.00-140.00 per ton.

Western Oklahoma: Old crop Premium quality large square bales 170.00-180.00. Good quality 90.00. Fair quality 70.00-80.00.

Grass Hay

Central Oklahoma: Prairie hay 4 X 5 bales 25.00-30.00 per bale. Good Bermuda 50.00-60.00 per bale in 5 X 6 bales. Fair quality Bermuda 5 X 6 round bales 30.00-35.00 per bale.

Western Oklahoma: Fair to Good Bermuda grass 5x6 bales 35.00-55.00 per bale, best quality Bermuda 60.00-65.00 per bale. Few loads Good quality Bermuda in large round bales 80.00 per ton. Prairie hay 4 X 5 bales 25.00-30.00. Wheat hay 70.00-80.00.

Eastern Oklahoma: Good bluestem in large square bales 80.00 per ton. Good mixed grass hay in 4 X 5 bales 25.00-30.00 per bale. Good Bermuda 4 X 5 bales 40.00-45.00 per bale. Bermuda 5 X 6 bales 50.00-70.00 per bale.

**OKLAHOMA HAY MARKET REPORT
5-14-15**

Hay movement very slow. Demand light to moderate for dairy alfalfa and good wheat hay, light for other offerings. Rainfall continued this week and Oklahoma has now received about 10 inches of rain over the past 30 days, about six inches above average. Lakes and reservoirs that have been extremely low for years have risen dramatically over the last week. Most ground very saturated and more rain is forecast through the weekend. Central Oklahoma is now officially out of the extreme drought status and conditions in much of western Oklahoma greatly improved. No haying or other field work is possible in most areas and muddy conditions are making it difficult to load or move hay.

**OKLAHOMA HAY MARKET REPORT
5-21-15**

Hay movement very slow under light demand and weather conditions that have halted haying and hay hauling in many areas. Demand is moderate for dairy hay and good quality wheat hay but little to no new crop offerings available at this time. Most of the state continues to receive rain and more is forecast for the next week. Rainfall amounts for the past 30 days now over 13 inches in central and eastern Oklahoma. Very little first cutting alfalfa put up without rain damage and many acres still uncut. Likewise wheat hay is becoming too mature for best quality forage. Markets largely untested for the past few weeks.

OKLAHOMA HAY MARKET REPORT

5-28-15

Hay movement at a near standstill as heavy rains and flooding continue to halt fieldwork and is making hay delivery difficult. Demand light to moderate for all types of hay. Best demand centers on Supreme and Premium alfalfa. Many brokers went out of state this week for dairy hay. The record rainfall is predicted to end more than four years of drought in most if not all of western Oklahoma. When conditions allow swathing and baling, a large amount of alfalfa is expected to be of only Fair to Good quality.

Alfalfa

Central Oklahoma: Good to Premium old crop few loads 155.00. Few loads new crop Premium quality 170.00-185.00. Old crop dry cow hay 135.00-140.00.

Eastern Oklahoma: Good to Premium old crop quality large round bales 120.00-140.00 per ton. Small square bales horse quality 12.00-14.00 per bale.

Western Oklahoma: Old crop Premium quality large square bales 155.00-170.00, new crop 155.00-175.00. Few loads old crop dry cow hay 100.00-130.00.

Grass Hay

Central Oklahoma: Prairie hay 4 X 5 bales 25.00-30.00 per bale. Good Bermuda 50.00-60.00 per bale in 5 X 6 bales. Fair quality Bermuda 5 X 6 round bales 30.00-35.00 per bale.

Western Oklahoma: Fair to Good quality new crop wheat hay 5 X 6 bales 50.00 per bale. Fair to Good old crop Bermuda grass 5x6 bales 35.00-55.00 per bale, best quality Bermuda 60.00-65.00 per bale. Few loads Good quality Bermuda in large round bales 80.00 per ton. Prairie hay 4 X 5 bales 25.00-30.00. Wheat hay 70.00-80.00 per ton.

Eastern Oklahoma: Good mixed grass hay in 4 X 5 bales 25.00-30.00 per bale. Good Bermuda 4 X 5 bales 40.00-45.00 per bale. Bermuda 5 X 6 bales 50.00-70.00 per bale.

Prices are dollars per ton and FOB unless otherwise noted.

**OKLAHOMA HAY MARKET REPORT
6-11-15**

**Oklahoma Direct Feeder Cattle Trade
6-12-15**

Alfalfa movement mostly light, occasionally moderate after a week of very active haying throughout central and western Oklahoma. Demand moderate to good for dairy hay, light for other offerings. The bulk of hay put up this past week was too mature for dairy hay with most offerings cow hay or grinding hay. Yields have been very good on meadows managed for insects and weed control. More rainfall is forecast over the weekend and this will further disrupt haying and wheat harvest. Wheat harvest is over half completed in southwestern Oklahoma and progressing rapidly northward. Wheat hay offerings mostly average quality with the bulk being mature and some showing rain damage. Grass hay demand extremely light and interest in old crop hay is almost non-existent.

Most producers across the state have started harvesting wheat and by next week most of the state will be completed. Receipts this week included 100 percent over 600 lbs and 24 percent heifers.

Receipts: 3,309 Last Week 4,137 Last Year 3,278

Compared to last week: Feeder steers sold 1.00-2.00 higher on limited comparable Current FOB sales. No trend available for feeder heifers. Demand remains good for feeder cattle. Compared to last week: Not enough comparable sales on steers or heifers from last week's light test for a market trend. Temperatures are forecasted to rise into the 90's for the rest of the week and through the weekend with heat indexes expected to be up to 105 degrees. Demand is moderate to good for weaned cattle, but buyers are hesitant to buy un-weaned calves due to the severe heat in the forecast.

**OKLAHOMA HAY MARKET REPORT
7-9-15**

**Oklahoma Direct Feeder Cattle Trade

Alfalfa movement light to mostly moderate, improved from recent weeks. Demand remains moderate to good for dairy quality, light to moderate for bunk or dry cow hay. Demand for grinding hay very light. Grass hay demand moderate to good in western Oklahoma, light in central and eastern counties. Continued rainfall disrupted haying in many areas this week and flooding and muddy conditions hampered movement. More seasonal weather is forecast for the next week and haying is expected to become very active.

**OKLAHOMA HAY MARKET REPORT
7-23-15**

**Oklahoma Direct Feeder Cattle Trade
7-24-15**

Alfalfa movement very light on all offerings with dairy hay demand light to moderate. Demand for lesser grades mostly very light. Out-of-state demand irregular this week with most interest coming from Texas dairies and little from feedlots or western dairies. Rain returned to the state at mid-week disrupting haying in some areas. Pasture and rangeland conditions in very good shape in terms of moisture and forage, this has pressured grass hay markets overall. Grass hay quality highly variable as usual and buyers very selective toward quality.

Receipts: 2,793 Last Week 3,094 Last Year 2,328

Compared to last week: No trend available for feeder steers and heifers due to limited comparable current FOB trades, but a lower undertone was noted. Demand remains moderate for feeder cattle. Sharp declines on both the CME Feeder and Live contracts hampered movement early in the week. Receipts this week included 100 percent over 600 lbs and 19 percent heifers.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 8-12 cent slide on calves and 4-8 cent slide on yearlings from base weights. Current sales up to 14 days for delivery

Compared to last week: Feeder steers traded mostly 2.00-4.00 lower. Feeder heifers not well tested for current FOB delivery. Cooler temperatures and large statewide rainfall swept across the trade area late in the week. Sharp declines on both the CME Live and Feeder cattle boards have hampered livestock moment. Demand moderate for feeder cattle. Receipts this week included 100 percent over 600 lbs and 11 percent heifers.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 8-12 cent slide on calves and 4-8 cent slide on yearlings from base weights. Current sales up to 14 days for delivery
