**OKLAHOMA HAY MARKET REPORT**

**2-14-19**

Alfalfa trade was moderate, limited by light supplies and offerings. Movement moderate to fairly active with the bulk of movement coming from out-of-state. Demand was good for all offerings. Increased hay movement is currently making it difficult for some buyers to find trucks in a timely manner. Alfalfa prices are steady to firm with most sales taking place at the upper end of ranges. Grass hay trading continued mostly active although offerings are much lighter. A great deal of lower quality, older hay is on the market and buyers are being very selective.

3-21-19**

Alfalfa trade at a near standstill. Movement extremely light. Demand mostly light to moderate. Buyers appear content to wait on new crop with current needs well covered. Latest sales and current asking prices fully steady with the past few weeks. Additional rain-fall this week and more in the forecast for the weekend improved developing wheat in most of central and western Oklahoma. Green-up is spreading northward and alfalfa growers are preparing equipment and making preparations for early spraying.

**OKLAHOMA HAY MARKET REPORT  
3-28-19**

Alfalfa trade remained very light this week. Movement extremely light with bulk of movement previously contracted hay. Demand very light. Prices were fully steady but lightly tested. Alfalfa growers now concerned with cleaning out barns, servicing equipment and spraying for aphids and weevils. Even though last week's rain totals were 1 percent below average topsoil and subsoil conditions are rated mostly adequate to surplus. Both wheat pasture and alfalfa fields showed good growth this week. Grass hay demand has tapered off in central and southern Oklahoma while western counties still show moderate to good demand.

**OKLAHOMA HAY MARKET REPORT  
4-18-19**

Alfalfa trade very at a near standstill on light supplies and limited demand. Movement extremely slow with just a few clean-up loads moving to clear barns. Prices were largely untested, latest sales steady with last few weeks. Most producers are now waiting on spring storms to clear to begin first cutting, however a few have begun swathng. Thunderstorms and more spring weather entered the state this week and next week's forecast now calling for more rain and storms.

**OKLAHOMA HAY MARKET REPORT**

**5-23-19**

Alfalfa trade and movement remains very light as rain and storms continue to impede haying activities. Demand was moderate to good for first cutting alfalfa. A large percentage of first cutting offerings are rain damaged, over mature or both. A good amount of wheat hay may still be put up but the window for best quality wheat hay is over. Too few sales confirmed this week for a full market but overall steady undertone noted. Oklahoma entered this haying season with the lowest hay stocks on hand since 2012, according to USDA National Agricultural Statistics Service.

Central Oklahoma: New crop Premium quality last reported 200.00

Eastern Oklahoma: No recent sales confirmed.

**OKLAHOMA HAY MARKET REPORT**

**6-21-19**

**6-20-19**

Receipts: 2,631 Last Week 2,043 Last Year 7,062

Hay trade continues slow to moderate across the state. Some of the areas have seen some dry days to cut hay but because rains continue to fall, farmers are having to bale before it is truly dry. Moisture content in Alfalfa is pretty high thus it can't be held for a very long time before it is turning black. Much of the hay being cut is only considered choice stock cow hay and this due to all of the rain. Dairy hay, at this moment is non-existent.

**Alfalfa**

Central Oklahoma: No trades reported

Eastern Oklahoma: No trades reported

Western Oklahoma: New crop Good quality large square bales 190.00-200.00 per ton; Grinding Hay 100.00 per ton

**OKLAHOMA HAY MARKET REPORT**

**6-28-19**

**6-27-19**

Receipts: 1,747    Last Week 2,631    Last Year 2,456

Once again the hay trade continues very slow across much of the state. On a good note though we have almost gone a week without rain. This has provided the opportunity for farmers to get out and cut, swath and finally bale hay. Prices were not fully established this week. Surprisingly, demand is extremely light. Recent rains and now warm weather has made for lush pastures. Hay buyers are willing to enjoy the green grass and wait for later to assess needs for hay. Also speculating hay prices could come down later in the season if the crop improves.

Compared to last week: Feeder steers and heifers to lightly tested this week for a trend. Demand moderate. Receipts this week consisted of 67 percent over 600 lbs and 77 percent heifers. Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 8-12 cent slide on calves and 4-8 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

**OKLAHOMA HAY MARKET REPORT**

7-12-19

7-4-19

Receipts: 6,164 Last Week 4,192 Last Year 11,957

Once again the hay trade continues very slow across much of the state. More seasonal weather has finally arrived bringing higher temperatures and drier weather in the forecast. This has provided the opportunity for farmers to get out and cut, swath and finally bale hay. Prices were not fully established this week. Heavy supply of alfalfa suitable for feed yards is readily available causing a lower demand from buyers. Surprisingly, demand is extremely light. Recent rains and now warm weather has made for lush pastures. Hay buyers are willing to enjoy the green grass and wait for later to assess needs for hay. Also speculating hay prices could come down later in the season if the crop improves.

**OKLAHOMA HAY MARKET REPORT**

7-19-19

7-18-19

Receipts: 4,059 Last Week 6,164 Last Year 6,507

Hay trade has picked up across much of the state. More seasonal weather has finally arrived bringing higher temperatures and drier weather in the forecast. This has provided the opportunity for farmers to get in and cut, swath and finally bale hay. Prices and movement were mostly steady. Heavy supply of alfalfa suitable for feed yards is readily available causing a lower demand from buyers. Surprisingly, demand is extremely light. High temperatures has made for lush pastures, however moisture has begun to be needed. Hay buyers are willing to enjoy the green grass and wait for later to assess needs for hay. Also speculating hay prices could come down later in the season if the crop improves.

Compared to last week: Feeder steers and heifers to lightly tested this week for a trend. Demand moderate. Summer weather has arrived and triple digit temps are expected thru the weekend. Supply consisted of 96 percent over 600 lbs and 58 percent heifers. Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 8-12 cent slide on calves and 4-8 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

**OKLAHOMA HAY MARKET REPORT**

7-26-19

7-25-19

Receipts: 3,905 Last Week 4,059 Last Year 3,547

Hay trade has slowed down across much of the state. Cooler than Average weather has swept across the trade area bringing much wanted relief from last week's triple digits temps. Prices were mostly steady, movement has slowed down. Heavy supply of alfalfa suitable for feed yards is readily available causing a lower demand from buyers. Surprisingly, demand is extremely light. High temperatures have made for lush pastures, however moisture is needed.

Compared to last week: Feeder steers and heifers mostly steady on limited comparable sales. Demand moderate. Much cooler weather has swept across much of the Midwest. Supply consisted of 100 percent over 600 lbs and 38 percent heifers. Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 8-12 cent slide on calves and 4-8 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

**Oklahoma Direct Feeder Cattle Trade**

**OKLAHOMA HAY MARKET REPORT**

**8-2-19**

**7-25-19**

Receipts: 9,607 Last Week 3,905 Last Year 5,140

Hay trade has slowed down across much of the state. Cooler than Average weather has swept across the trade area bringing much wanted relief from last week's triple digits temps. Prices were mostly steady, movement has slowed down. Heavy supply of alfalfa suitable for feed yards is readily available causing a lower demand from buyers. Surprisingly, demand is extremely light. High temperatures have made for lush pastures, however moisture is needed.

Compared to last week: Feeder steers and heifers mostly steady on limited comparable sales. Demand moderate. Very dry conditions continue across the trade area. Supply consisted of 97 percent over 600 lbs and 63 percent heifers. Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 8-12 cent slide on calves and 4-8 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

**OKLAHOMA HAY MARKET REPORT**

**8-16-19**

**8-15-19**

Receipts: 625    Last Week 5,584    Last Year 1,974

Alfalfa and hay movement very limited this week. Few sales trading steady to weak. Fourth cutting of alfalfa in the works for producers with concerns of blister beetle issues for horse hay buyers taking hold. Most dairies limiting hay purchases adding to lack of demand and movement. Reports of some areas receiving three inches of rain over the week. Producers in Western and Southwestern side of the state experiencing drought like conditions.

Compared to last week: Feeder steers and tested this week. Sharp declines on both the CME Feeder and Live Cattle contracts early in the week had buyers and sellers weary to make any movement. Demand light. Supply consisted of 100 percent over 600 lbs and 58 percent heifers. Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 8-12 cent slide on calves and 4-8 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

**OKLAHOMA HAY MARKET REPORT**

**8-23-19**

**8-22-19**

Receipts: 2,471    Last Week 625    Last Year 3,062

Alfalfa and hay movement very limited this week. Not enough trades for an adequate market trend. Blister beetles continue to be an issue this week for producers and have been limiting the hay they move. Demand for hay and alfalfa continues to be sluggish for dairies. Scattered thunderstorms and rain are making their way across the state this week and expected through Saturday.

Compared to last week: Feeder steers and tested last week. Demand moderate. Supply consisted of 100 percent over 600 lbs and 31 percent heifers. Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 8-12 cent slide on calves and 4-8 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

**Oklahoma Direct Feeder Cattle Trade**

**OKLAHOMA HAY MARKET REPORT**

9-13-19

9-12-19

Receipts: 4,530 Last Week 3,699 Last Year 3,436

Alfalfa and hay movement slow and prices remain steady for all classes. Hay trade has been sluggish as producers hoping a higher feed price would encourage more hay feeding, however feed prices have held relatively low, thus hurting the demand for hay. Another item that has limited the hay trade has been those who will bale whatever Mother Nature has in the field. Producers have been busy working ground and or planting both wheat and hay ahead of a forecasted rain and cold front headed thru the state today. Haying should pick up if this rain does fall.

**Alfalfa**

**OKLAHOMA HAY MARKET REPORT**

9-27-19

9-26-19

Alfalfa and hay movement extremely limited. Not enough for a market trend. Hay trade has been limited due to the volatility of cattle prices, rain, and availability. Many producers are continuing to battle weeds and work around thunderstorms.

**Oklahoma Direct Feeder Cattle Trade**

**OKLAHOMA HAY MARKET REPORT**

**10-4-19**

**10-3-19**

Alfalfa and hay trade continues extremely slow but prices remain steady. Due to the very wet spring and early summer, many producers didn't get that high quality first cutting of hay. Demand is very good for this hay but supplies are just not there. Demand is limited for any hay that is less than good quality. Farmers are now busy spraying for weeds and bugs and having to work around rain.

**Oklahoma Direct Feeder Cattle Trade**

**OKLAHOMA HAY MARKET REPORT**

**10-11-19**

**10-10-19**

Alfalfa and hay trade continues extremely slow but prices remain steady. Due to the very wet spring and early summer, many producers didn't get that high quality first cutting of hay. Demand is very good for this hay but supplies are just not there. Demand is limited for any hay that is less than good quality. Farmers are now busy spraying for weeds and bugs and having to work around rain.

**OKLAHOMA HAY MARKET REPORT**

10-18-19

10-17-19

Alfalfa and hay trade still extremely slow, in fact some say slowest it has ever been. The limited trade that has taken place is at steady money. Premium quality hay very difficult to find. Much of the state saw it's first freeze or frost over the last weekend. Much of the grass hay in Western Oklahoma was unharmed as the ground remains warm. Other parts of the state were not so lucky. Farmers have been busy this week cutting and baling Bermuda grass and hoping for continued dry weather for baling. According to the Oklahoma Crop Progress report, Winter Wheat planting in Oklahoma has reached about 69 percent, however a rain is needed in Western Oklahoma. In the south some farmers are having to replant wheat because conditions were too dry or the wheat that came up was overtaken by Army Worms.

**Alfalfa**

Central Oklahoma: Good Premium quality 225.00 per ton delivered in Oklahoma. Grinding Alfalfa 100.00 per ton FOB, 125.00 per ton delivered.

Eastern Oklahoma: No sales reported.

Western Oklahoma: Good quality Rounds 180.00 per ton delivered in Oklahoma.

**Grass Hay**

Central Oklahoma: Good to Premium quality Bermuda Grass 5 X 6 round bales 105.00 per ton. Good quality 60.00-65.00 per bale; 9.00 per small square bale in barn FOB. Fair to Good quality hay 100.00 per ton FOB; Fair quality hay 55.00 per bale FOB.

Western Oklahoma: Wheat hay 70.00 per ton delivered in Oklahoma.

Eastern Oklahoma: No sales reported.

Prices are dollars per ton and FOB unless otherwise noted.

Receipts: 1,657 Last Week 4,038 Last Year 2,725

Compared to last week: Feeder steers and heifers not well tested this week for an accurate trend however a higher undertone is noted. Demand good. Cooler weather has arrived bring more seasonal temperatures. Supply consisted of 96 percent over 600 lbs and 57 percent heifers. Current sales up to 14 days for delivery.

**OKLAHOMA HAY MARKET REPORT**

**10-25-19**

**10-24-19**

Alfalfa and hay trade still extremely slow, in fact some say slowest it has ever been. A severe cold front is in the forecast for late in the week and over the weekend bringing even colder than normal seasonal temperatures in some parts of the state. Spring born calves have begun to hit the market and much lower prices have producers less likely to purchase or even inquire about hay prices due to light demand. The very limited trade that has taken place is at steady money. Premium quality hay very difficult to find. In the south some farmers are having to replant wheat because conditions were too dry or the wheat that came up was overtaken by Army Worms. Army Worms also posing a problem for grass hay fields and farmers having to spray.

**Oklahoma Direct Feeder Cattle Trade**

**OKLAHOMA HAY MARKET REPORT**

**11-01-19**

**10-31-19**

Alfalfa and hay trade remain exceedingly limited. Winter weather advisories mixed with rain and sleet haven't helped with the light movement. Cattle prices continue to add to low demand with reports of selling a dozen calves just to pay for the higher hay prices. The few sales that have occurred are mostly steady. Premium quality hay very difficult to find and the horse quality hay that is available isn't in high demand as of now. The few producers that are still haying are on third cutting of Bermudagrass and 6th to 7th cutting of alfalfa with not much optimism for quality due to rainfall mostly. Reports of some livestock owners having substantial grass and hay inventories where others have used up pasture grazing but looking for lower quality hay to get through the cold snap.

Receipts: 1,768 Last Week 1,657 Last Year 2,879

**OKLAHOMA HAY MARKET REPORT**

**11-07-19**

Alfalfa and hay trade continues very slow. Very limited sales are steady. Dairy hay trade is light due to weak milk prices. At the moment, much of the alfalfa hay would be going to horse outlets and that would be in limited quantities. Many dairies already have their needed supplies. Any grass hay that is moving is only fair in quality because it has weeds or has been rained on a few times. This slow movement is expected to continue until these folks run out of their current supply of hay. Winter weather has moved in early and much of the state is receiving a cold rain or winter precipitation. Early next week, highs are expected to be in the 30's.

**Alfalfa**

Central Oklahoma: No sales reported.

Eastern Oklahoma: No sales reported.

Western Oklahoma: Good quality large round bales 175.00-185.00/ton; Fair quality large round bales 125.00/ton. Grinding hay 100.00 per ton.
