

## Oklahoma Department of Agriculture, Food and Forestry Nursery Program

**Q:** Do I need a nursery license with the Oklahoma Department of Agriculture if I do not plan sell clones/live plants?

**A:** No, a nursery license is only required for those companies that sell clones/live plants.

**Q:** Do I need a nursery license with the Oklahoma Department of Agriculture, Food and Forestry if I plan to sell cuttings?

**A:** Yes, since you are selling live plants.

**Q:** What is the difference between a grower license and a dealer license?

**A:** A Grower license is for an operation that is growing and selling live plants. A Dealer license is for an operation that buys and resells live plants.

**Q:** Do I need both a Grower and a Dealer license if I plan to sell live plants?

**A:** No, you only need one depending on your type of operation (see previous question).

**Q:** The Grower application is asking me for greenhouse growing space (square footage) and outside growing space (acreage). What if I grow indoors, but it's not in a greenhouse?

**A:** Please put all indoor grow space (square footage) under greenhouse growing space.

**Q:** Are there any rules/regulations for moving marijuana plants across county lines?

**A:** Yes, county quarantines apply to marijuana also. The rules would depend on which county you're shipping from and which county you're shipping to.

**Q:** Can you tie my Oklahoma Department of Agriculture license to my OMMA license?

**A:** No, OMMA is a separate government agency.

**Q:** When can I schedule a safety inspection of my facility?

**A:** Those inspections are done through OMMA. Please contact them.

**Q:** What are the regulations on growing marijuana?

**A:** Regulations on marijuana are set by OMMA. Please contact them.

**Q:** Do I need to be an Oklahoma resident to be able to grow marijuana?

**A:** Those regulations go through OMMA. Please contact them.

**Q:** Where can I find the nursery grower and dealer license applications?

**A:** <https://ag.ok.gov/plant-industry/>

### Seed Program

**Q:** Are marijuana grow facilities required to have a seed license?

**A:** If the grow facility is only producing flower intended for flower then no. If the grow facility is producing flower intended for seed production, yes.

**Q:** Marijuana flower can often unknowingly contain seed. Are all marijuana dispensaries required to have a seed license for this reason?

**A:** No, dispensaries are only required to have a seed license if they are selling packaged seed intended for growing purposes.

**Q:** Are dispensaries and grow facilities that sell their own seed required to report seed tonnage/poundage?

**A:** Yes, it needs to be reported semiannually.

**Q:** Is marijuana seed held to the same standards as vegetable/hemp/agricultural seed in the Seed Law?

**A:** No, marijuana has separate labeling requirements that are listed in the Oklahoma Seed Law Rules.

**Q:** Does the Oklahoma Department of Agriculture have anything to do with “Seed to Sale” requirements?

**A:** No. “Seed to Sale” is a separate requirement administered under OMMA rules and regulations.

**Q:** Where can I find a seed license application?

**A:** <https://ag.ok.gov/plant-industry/>

### **Weights and Measures Program**

**Q:** What kind of scale do I need to meet the legal requirements in Oklahoma?

**A:** As long as it is an NTEP approved scale then it is acceptable.

**Q:** How do I know if a scale is NTEP approved?

**A:** By checking to see if it is on the NTEP approved list on the NCWM website: [www.ncwm.com](http://www.ncwm.com)

**Q:** Where can I purchase a NTEP approved scale?

**A:** We can provide you with an approved scale company list for Oklahoma <http://kellysolutions.com/ok/ServiceAgents/searchbyCity.asp> and a copy of the NCWM guide for buying scales.

**Q:** Can your department send an inspector to my business to verify my scale meets legal requirements?

**A:** Yes, after your scale has been set up and calibrated.
