

Farmer's Market Price Report OSU-OKC

May

2021

Market Comments:

First market report of the season. Longer cooler temperatures has provided for plentiful items such as leafy greens, radishes and sweet potatoes. Limited supplies of some input items has created higher input cost, thus forcing prices slightly higher. This didn't seem to bother the consumer as several shoppers were out filling their bags with goodies. We have added a new section of Bison products and hope to add some beef items by the next report. The next report will be in June. *Please note: Sizes of bunches, cartons, bundles, and other containers used at the farmers market may vary vendor to vendor.*

Classification and Varieties	Production Practice	Unit of Sale	Lowest Price	Highest Price
