Routine Carcass Disposal Plan for Daily Operations

- Composting
- Incineration (depending on size, must have DEQ Air Permit)
- Landfill (if selected, must submit letter of acknowledgement from land-fill facility)
- Rendering (if selected, must submit letter of acknowledgement from rendering facility)
- Other (please describe): _____

Emergency Carcass Disposal Plan for Deaths Significantly Higher than Normal

- Composting
- Incineration (depending on size, must have DEQ Air Permit)
- Land-fill (if selected, must submit letter of acknowledgement from land-fill facility)
- Rendering (if selected, must submit letter of acknowledgement from rendering facility)
- Other (please describe): _____

6. Checklist of Additional Documents Required with New Application Submission

- A diagram and/or map showing geographical perimeters; planned location of facility and storage building(s); any nearby waters of the state; and land application sites (if applicable) – see page 5 of this packet for guidance
- A copy of the current approved Nutrient Management Plan or proof of application (Letter of Intent) to write a Nutrient Management Plan (NMP).
- A Statement of Ownership of the Farm Operation – please mark the applicable answer and provide necessary documentation
 - The applicant is a corporation – please provide the name and address of the corporation and the name and address of each officer and registered agent of the corporation. (please complete the Corporation Data Sheet in this packet)
 - The applicant is a partnership or other legal entity – please provide the name and address of each partner and stockholder with an ownership interest of 10% (ten percent) or more. (please see Corporation Data Sheet)
 - Not Applicable, the farm operation is owned by a person(s) not associated with partnership/business
- Environmental History, Records, and Awards – please mark the applicable answer and provide necessary documentation
 - An environmental history from the past three years of any poultry feeding operation established and operated by the applicant or any other operation with common ownership in this state or any other state.
 - Not Applicable
- Warranty Deed (Proof of Land Ownership)

I certify under penalty of law this document was verified and updated under my direction. Based upon my inquiry of the person or persons directly responsible for verifying or updating the data, the information submitted is to the best of my knowledge and belief, true, accurate, and complete. I am aware there are significant penalties for knowingly submitting false, inaccurate, or incomplete information, including the possibility of a fine not more than ten thousand dollars for each violation.

Map Guidance

Per Oklahoma Statute Title 2 § 10-9.5(B)(5) – a diagram or map must be submitted that includes:

- Perimeters of the facility
- Location of waters of the state (including, but not limited to, drainage)
- Poultry waste storage facilities
- Land application sites, either owned or contracted with, for which poultry waste will be applied (if applicable)

Our recommendation to create a basic map to submit with your application is:

1. Click and use the Google Earth link below (click on “Launch Earth” if first time using this resource)
2. Click “Google Earth on web” then Click “Launch Earth”
3. Click on the magnifying glass (Search) on the left side bar
4. In the Search box, type in your GPS Coordinates (Latitude, Longitude) or if the farm has a street address you can type that in. Another option, if you are currently on location of the farm while working with the map, you can click on the “Fly to your location” button (looks like a cross-hair target in the lower right hand corner of the screen) and it will take you to where you are.
5. When the picture pulls up, ensure you are in “2D” mode (bottom right hand corner “2D” button)
6. Zoom in or zoom out to ensure the entire farm is in the picture (including land apply areas if applicable)
7. Take a screen shot (print screen) or snippet (Windows+Shift+S)
8. Save the copy and draw proposed buildings on the map – ensure drawing is close to scale and direction of buildings is correct (can be done by hand or using a basic draw program such as Paint or even MS Word)

(Please note – you can use any resource to create your map or diagram; you are not required to use the instructions listed above. They are provided as a convenience.)
