Oklahoma Production Cost Report (Bi-Weekly)

4-18-25

Compared to last report: All seven major fertilizers increased in price with Urea and UAN seeing the biggest price increases. Planting season is upon us. Western Oklahoma is still seeing allocation of Nitrogen based fertilizers. Eastern Oklahoma saw supply disruptions last week because of flooding of the Arkansas River but no allocation of fertilizers at this time. Heavy rain is forecasted for much of Oklahoma and more flooding in Eastern Oklahoma is likely. Domestic Potash prices are likely to remain steady after price increases in the last two weeks. Most Potash is imported and international Potash will see price increases in the future. Triple 19 fertilizer was added to this report. Farm diesel and propane prices increased slightly.

Oklahoma Retail Feed Cost Report (Monthly)

4-4-25

Compared to last report: Summer months feed pricing started this month. About half of my contacts had changed their prices so far. Comparing those contacts feed prices increased slightly except for DDG and Soy Hulls. The stock market plunged yesterday pushing Live and Feeder Cattle sharply lower. Wide spread rain fell across much of Oklahoma yesterday and today, helping to ease drought conditions
